

DaimlerChrysler Sterling Heights Assembly Plant

At this plant, the Corporate Services classes are open to all Corporate Services students, but you must be on a list. To get on the list call Teena Thomas at 586-977-5335 or Tanya Urcavich at 810-343-0725.

The plant is located on the northwest corner of 16 Mile Road and Van Dyke in Sterling Heights, Michigan.

The Training Center, where classes are held, is located behind the Main Manufacturing Building. To reach the Training Center, take 16 Mile west from Van Dyke. Stay right at the viaduct. Enter the last parking lot before the Post Office.

Park in Employee Parking. Use the turnstiles at the north end of the parking lot. As a visitor you will have to press the security buzzer and you will be told to go through one of the turnstiles by Security Personnel.

Once inside the plant grounds, walk north to the Training Center, which is attached to the Linker's Office. Look for the Baker College signs once you are in the building.
