BAKER COLLEGE
Program Information

Project Management and Planning
Bachelor of Information Systems
```

Campus: Online.

Program Description

Information Systems professionals serve as strategic liaisons between administrative and technological functions of an organization. I.S. professionals integrate business processes and complex information technology while serving as consultants, designers, or implementers of new solutions that assist an organization in achieving goals. Related occupations include Information Systems Manager, Chief Information Officer, Project Manager, Computer Systems Analyst, and Systems Administrator. This major prepares an individual for immediate application of the knowledge, skills, tools, and techniques that are utilized in the practice of project management. The philosophy as well as the set of methods learned in this program will enable graduates to lead projects, complete them on time and within budget. This program will help prepare students for certification as a project manager.
