12 REASONS TO CHOOSE BAKER

Choosing the right college can be a difficult decision and no two colleges are completely the same. Here is a list of some of the things that make Baker College unique. Take a look and consider whether or not Baker is the best choice for your education.

EDUCATION AND TRAINING THAT LEAD TO EMPLOYMENT

Since 1911 we've been preparing people for employment or career advancement.

NOT-FOR-PROFIT

Baker College is Michigan's largest independent college. Being a not-for-profit institution allows us to invest in our students rather than focus on shareholders, helping us maintain affordable tuition.

EMPLOYER ADVISORY BOARDS

We meet with employers to ensure our career programs are designed to meet the demands of the real world.

SMALL CLASS SIZES

At Baker you get all the personalized attention you need.

HIGH GRADUATE EMPLOYMENT RATE

Baker College delivers one of the highest available graduate employment rates in the country, giving you the best chance for a career.

LIFETIME EMPLOYMENT ASSISTANCE

All Baker graduates receive Lifetime Employment Assistance—free and forever.

OVER 100 CAREER PROGRAMS

Earn a certificate, associate, bachelor, master, or doctoral degree. Baker offers over 100 career programs in high-demand fields.

CONVENIENT CLASS TIMES

Choose from day, evening, and online classes.

REAL-WORLD PROGRAMS

Baker programs prepare you for growing career fields, and are taught by working professionals that bring real-world perspective to the classrooms.

AFFORDABLE

Federal, State, and Baker College financial aid is available for those who qualify, to help make the investment in your future an affordable one.

QUALITY EDUCATION

Baker is accredited by the Higher Learning Commission, which assures you that credits earned are recognized and meet high standards of educational quality.

EMPLOYER CONNECTION

Baker's Career Services department gives you an advantage by connecting you with a network of local employers.

2017

SEMESTER CONVERSION

Conversion to Semesters

Baker College is preparing to move to a semester-based academic calendar from a quarter-based academic calendar effective Fall 2017. We are committed to working with our students for a successful transition. Students completing their degrees and graduating prior to Fall 2017 will not be affected by this change.

Baker College is committed to partnering with students to help manage expectations. Each Baker College student can expect advising resources to assist in defining a specific path to degree completion.

The primary purpose of a semester system is that it provides greater opportunities for:

- More in-depth teaching and research projects.
- Enhanced internships. Employers involved in Baker College internships often prefer the semester calendar because the extended work cycle provides more time to engage students in projects and deepen their responsibilities.
- Ease of transfer in and out of Baker College programs to and from other institutions. Approximately 90% of higher educational institutions currently follow the semester system.
- Graduate entrance into the job market. Most large employers align recruitment schedules to the semester calendar.

Our Pledge to You

Baker College ensures that the transition from quarters to semesters will not cause a loss in academic progress. The transition will be cost and time neutral. Students who work with a designated advisor to form an advising plan—and then follow that plan—will not lose earned credit as a result of the conversion.

Cost Neutral = No Increased Costs To Complete Degree

Tuition and fees under the semester system will not be greater than they would be under the quarter system. The full-time cost of two semesters equals the full-time cost of three quarters. As always, the College may implement annual tuition increases as deemed necessary by the Board of Trustees.

Time Neutral = No Delay To Complete Degree

This pledge guarantees that students who are on track to complete their degrees at the time of conversion and who maintain a consistent rate of credit accumulation after semester conversion will not experience an extension of the time-to-degree completion. However, Baker College cannot be held responsible for personal choices or individual circumstances which may affect time to completion such as any of the following:

- changing programs/majors
- changing from full-time status to part-time status
- deviating from the established Individualized Graduation Plan (IGP)
- adding additional student-elected courses to the program of study
- withdrawing from all courses for a term or more
- withdrawing from/failing/repeating individual course(s)

If you have questions about the upcoming conversion from quarters to semesters, we encourage you to contact your academic advisor.

MISSION & PURPOSES

The mission of Baker College is to provide quality higher education and training which enable graduates to be successful throughout challenging and rewarding careers.

To this end, the following purposes have been established:

- Prepare students for competency in business, computers, education, engineering/technology, health, and human services careers in today's global economy.
- Provide general education which expands students' horizons, develops strong communication skills, and encourages critical thinking.
- Provide students with practical experience and training in a chosen field of study.
- Encourage social and classroom-related activities which promote both personal and professional growth.
- Enhance students' success through continuous assessment and improvement of teaching, learning, and institutional effectiveness.
- Assist graduates throughout their careers in securing employment and improving career opportunities.
- Encourage graduates to continue their education and to lead effectively through service in a world without boundaries.
- Offer graduate programs which provide students with advanced study, research, scholarly activity, and opportunities for professional development.

THE HISTORY OF BAKER COLLEGE

Committed to higher education for over 100 years.

The beginning of Baker College can be traced back to the turn of the 20th century, when Woodbridge Ferris—who later became Governor of Michigan and then a U.S. Senator—founded Muskegon College. Just two decades later, Eldon E. Baker—an educator who built a highly successful business college in Winfield, Kansas—moved to Flint and founded Baker Business University. In 1965, these two institutions came together, and throughout the years, the schools continued to thrive and expand. Today, Baker College is the largest not-for-profit, independent college in Michigan with nearly 25,000 students at nine on-ground campuses, multiple extension sites, and online.

1888 - 2015

BAKER COLLEGE OF **ALLEN PARK** “DOWNRIVER CAMPUS”

Baker College of Allen Park—located “downriver” from Detroit—is equipped with modern classrooms and facilities, the latest multi-media capabilities, campus-wide WiFi, and other modern resources.

Classrooms are appointed with flexible furnishings, interactive white boards, and the most up-to-date equipment available. The Baker Cafe and expanded Academic Resource Center are welcoming spaces. Health Science programs are centralized on the second floor of Building A with state-of-the-art nursing, anatomy/physiology, and chemistry labs. The new Cyber Defense lab features the latest technology and equipment needed to teach the skills required for this cutting-edge career program.

The campus is conveniently located with easy access to major interstates and freeways (I-94, I-75, and Southfield Freeway), as well as Detroit Metropolitan Airport. This area is a thriving hub for business, manufacturing, and commerce. The campus is a short drive from the headquarters of major corporations such as Ford Motor Company, AAA, and Henry Ford Hospital. The world’s largest tire, the Uniroyal tire, is a recognizable landmark located just west of the campus on I-94.

LIFE ON CAMPUS

Technology and innovation, coupled with small class sizes, are the hallmark of the Allen Park campus. Students have ready access to modern resources and instructors who are industry leaders.

BAKER COLLEGE OF **AUBURN HILLS**

As a student at Baker College of Auburn Hills, you have the best of all worlds—small class sizes, professional instructors who know you by name, state-of-the-art classrooms and labs, and hands-on training in specialized facilities that replicate actual work environments. We offer degree programs that lead directly to careers that have today's best opportunities for employment and advancement.

Located in Oakland County, Baker College of Auburn Hills is in the epicenter of Automation Alley, one of the country's flourishing economic and business centers. The 17-acre campus is within a half mile of the interchange for I-75 and University Drive. Oakland County boasts the second highest per capita income in the nation and some of the fastest growing companies in the world. Oakland County is home to one-third of Michigan's research and development firms, and one-third of all U.S. automobile production takes place within 70 miles. The area is surrounded by 88,000 acres of wooded parkland with over 450 lakes nearby.

A COMPETITIVE EDGE

Specialty programs are taught in special environments. There's no better way to learn than hands-on, so our labs and classes are designed to mirror the work environments our students will be employed in. Baker grads are prepared for their careers.

AUBURN HILLS 

BAKER COLLEGE OF **CADILLAC**

Baker College of Cadillac reflects all the warmth, friendliness, and small-town character of northwestern Michigan. The area offers abundant lakes, streams, and woods with opportunities to enjoy year-round, four-season activities such as golfing, hiking, camping, boating, fishing, canoeing, small and large game hunting, snowmobiling, downhill and cross-country skiing, and snowboarding.

The 66-acre campus is located just outside the city and features student housing, an outside patio, a Student Center, several computer labs, extensive parking, a fitness center, and a learning center where free tutoring services are available to all students.

Because we're Baker College—Michigan's largest independent career college—you'll have all the advantages: small class sizes, highly qualified instructors, and the latest equipment, technologies, and resources in our classrooms and labs.

We offer certificates as well as associate and bachelor degree programs in careers that have the best opportunities for employment and advancement. We work closely with local employers to keep our curriculum current.

Baker College of Cadillac has recently added student housing, allowing students who live too far away to commute to benefit from all that Baker College has to offer.

BAKER COLLEGE OF **CLINTON TOWNSHIP**

For students who live northeast of Detroit, Baker College of Clinton Township is ideally situated in the cultural hub of Macomb County. The campus features a modern three-story building on the Little Mack campus as well as an Admissions Welcome Center, spacious Student Center, Technology Center, and Autobody and EMS buildings.

Instructional classrooms and labs featuring the latest technologies as well as advanced training facilities that mimic real-world working environments, make this the ideal place to train for your new career. A spacious, state-of-the-art library offers electronic access to all materials in the Baker College System Libraries, and our classrooms are equipped with multi-media technology.

Baker College of Clinton Township offers several certificates as well as associate and bachelor degrees in career programs that have the best opportunities for employment and advancement in today's workplaces.

CLINTON TOWNSHIP 

BAKER COLLEGE OF **FLINT**

Baker College of Flint is our flagship campus. Here, you'll have the individual attention and guidance that a small campus can provide, along with everything you'd expect in a modern college campus—classrooms with multi-media systems, a technology center, state-of-the-art labs, and more. Whether you live on campus or commute, you'll appreciate our extensive academic resource facilities, campus-wide WiFi, fitness center, bookstore, café, and Coffee Beanery. The 40-acre campus features contemporary buildings creating an ambiance as close to today's business workplace as possible.

Strategically located just outside the southeast corner of Flint, just minutes from major highways, students enjoy the best of urban living as they take advantage of year-round opportunities at the Flint Cultural Center or enjoy swimming, boating, fishing, camping, skiing, or skating at area parks and lakes. Nearby public golf courses, restaurants, and shopping malls are also accessible.

THE CENTER FOR TRANSPORTATION TECHNOLOGY

The Center for Transportation Technology is a division of Baker College of Flint. It is conveniently located approximately six miles from the main campus, in the city of Flint, at the junction of I-69 and Dort Highway. This division supports the Autobody Technician Certificate, an Associate Degree in Automotive Services Technology, as well as Certificates in Truck Driving and Welding. The facility has been recently renovated and features up-to-date automotive labs, welding labs, classrooms, a computer lab, multi-media rooms, and a new truck terminal.

EVENTS

- Antique Car Show
- Back to the Bricks
- Bikes on the Bricks
- Flint Art Show
- Flint Symphony Orchestra Series
- Frankenmuth Bavarian Festival
- Michigan Renaissance Festival
- Music in the Parks
- Whiting Showcase Series
- World-renowned Crim Festival of Races

CASS CITY EXTENSION

About 75 miles northeast of Flint, in the center of Michigan's thumb area, the friendly, rural community of Cass City is home to a Baker College extension site. The modern, one-story building near the center of town features its own academic resource facility, student center, and state-of-the-art multi-media classrooms including medical, welding, and computer labs.

BAKER COLLEGE OF **JACKSON**

Baker College of Jackson is in a quiet rural area, just outside of the city of Jackson. Stop by the Welcome Center for a visit. On our 42-acre campus, you'll find modern, state-of-the-art classrooms and labs, and specialized facilities that duplicate today's real-world workplaces. Our Academic Resource Center, a cutting-edge engineering facility, and our business and technology center feature the latest technology and equipment. Class sizes are small, assuring you of individual attention and guidance and the opportunity for more hands-on training.

The Jackson campus offers certificate, associate, and bachelor degree programs that lead directly to today's most in-demand careers.

PLACES TO EXPLORE

JACKSON
COLDWATER

BAKER COLLEGE OF **MUSKEGON**

Just five minutes away from the sugar-sand beaches of Lake Michigan is Baker College of Muskegon—West Michigan's premiere career college. It's a campus designed for hands-on learning, with state-of-the-art classrooms and labs, specialized training facilities equipped with the latest technologies, including a newly completed Health Science Center as well as an expansive Academic Resource Center. Whether you commute or live on campus, you'll appreciate our small college atmosphere, with quiet places to study, instructors who provide personal attention, and a recreation center to relax with friends.

The Muskegon campus offers certificate, associate, and bachelor degree programs to prepare students for employment in today's most in-demand careers. Situated on over 63 wooded acres, Baker College offers residence hall choices both on and off campus. Campus venues include The Quarterline Grill, the West End Cafe, the Academic Resource Center, student center, gymnasium, West End Fitness Center, and the BRIC (Baker Recreational and Information Center).

**HOUSING
AVAILABLE**

Baker College of Muskegon offers a variety of resident living options. Choose from several on-campus residence halls or nearby apartment and loft-style living.

FREMONT EXTENSION

The Baker College of Muskegon Fremont Extension provides residents of Newaygo County the opportunity to begin and complete career training in select degree and certificate programs.

The three-story, state-of-the-art Culinary Institute of Michigan (CIM) is located just a few miles west of the main campus. In addition to the American Culinary Federation (ACF) accredited Associate Degree in Culinary Arts or Baking and Pastry, students can earn an Associate or Bachelor degree in Food and Beverage Management. These programs combine personalized instruction with hands-on experience. The public is invited to sample the students' creations in the student-run restaurant, COURSES, and in the The Sweet Spot, the on-site pastry and coffee shop.

BAKER COLLEGE OF **PORT HURON**

Baker College of Port Huron, conveniently located close to the Blue Water Bridge, has some of the most advanced classrooms and hands-on learning environments found on any college campus in the State. It's a friendly, supportive atmosphere, with class sizes that are small and instructors who know you by name, computer labs, access to extensive library facilities, and a student center in which to study or relax.

The campus is situated on 12-acres at the west side of town convenient to I-69 and I-94, and only five minutes from the Blue Water Bridge which connects Port Huron with Sarnia, Ontario. Our campus offers certificate, associate, and bachelor degrees in fields that lead directly to today's best career opportunities.

HOUSING AVAILABLE FOR CIM STUDENTS

Baker College of Port Huron has built a new resident hall to house its Culinary Institute of Michigan students.

The two-story, state-of-the-art Culinary Institute of Michigan (CIM) is located a few miles from the main campus at the foot of the St. Clair River and contains a breathtaking view of the beautiful Blue Water Bridge. The CIM offers Baking and Pastry, Culinary Arts, and Food and Beverage Management programs. These programs combine personalized instruction with hands-on experience. The public is invited to sample the students' creations in the student-run restaurant, COURSES.

PLACES TO EXPLORE

- Cutter Bramble Museum
- Fort Gratiot Lighthouse
- Huron Lightship Museum
- Knowlton Ice Museum
- Sightseeing on Huron Lady II
- Thomas Edison Museum
- Two International Blue Water Bridges
- U.S. Coast Guard Cutter

EVENTS

- Art on the River
- Bayview Yacht Club Port Huron to Mackinac Sailboat Race
- BlueWater Fest
- Cruise Night Classic & Antique Car Parade
- Feast of St. Clair
- Festival of Trees
- Rotary International Parade
- St. Clair Art Fair
- Taste of Port Huron

BAKER COLLEGE OF **READING**

Baker College of Reading is Baker's newest campus and its first location in Pennsylvania. The campus is conveniently located in downtown Reading with easy access to public transportation and within walking distance to restaurants, retail shopping, and the Santander Arena. The four story facility includes 26,000 square feet of state-of-the-art classrooms equipped with flexible furniture, interactive white boards, teleconferencing, and technology. The new Medical Assistant laboratory is designed to mirror actual work environments to provide students with real world experience. The newly renovated facility also offers access to computers, library and study resources, a student lounge, and free WiFi.

The campus offers associate degree programs in Business Administration, Human Services, and Medical Assistant, as well as over 40 undergraduate and graduate programs available 100% online. Small class sizes provide individual attention and hands-on training to equip students for employment.

PLACES TO EXPLORE

- Genesis Theatre
- GoogleWorks Center for the Arts
- Mid Atlantic Air Museum
- Mountain Bike Trails: Union Canal Trail & Wyomissing Creek Trail
- Santander Arena & Performing Arts Center
- The Pagoda

EVENTS

- Arts Festival Reading
- Berks Jazz Fest Concerts
- Reading Air Fest
- WWII Weekend

READING

BAKER ONLINE

Baker College Online is the “virtual campus” of the Baker College System. With Baker Online, you can earn your degree without ever setting foot in a campus building. An Internet connection is all you need.

Baker Online is more than an exciting delivery method for higher education. It breaks down barriers that working people have struggled to overcome for years. It enables people to fit a college education into their busy schedules, instead of modifying their schedules for classes. With faculty members and students based all over the world, Baker Online students benefit from a truly world-class perspective.

Our online courses begin and end on specific dates and class work is assigned deadlines to keep you on track toward earning your degree. Our classrooms and our extensive library resources are open 24 hours a day, seven days a week, so you can do classwork day or night. Students are assigned to “virtual classrooms” facilitated by qualified online instructors, which is the common meeting area for faculty and students. Students conduct research, submit assignments, ask questions, and participate in discussions in the virtual classroom comparable to a traditional classroom setting.

Every online course we offer is based on a fully accredited core curriculum, so it's easy to combine online and on-ground courses if that works best for you.

BAKER ONLINE BOARD OF REGENTS

Polly Bashore, Ph.D.
Project Manager GMPT,
Engineering Consolidation

Dr. Cheryl Bergman
Associate Dean and Professor of Nursing
Jacksonville University

F. James Cummins

BAKER CENTER FOR **GRADUATE STUDIES**

The Baker Center for Graduate Studies offers the opportunity to increase one's knowledge, broaden understanding, and develop specialized skills beyond a baccalaureate degree. Students receive quality graduate education that leads to advanced academic achievement through excellence in teaching, scholarship, and service. Graduate programs are available in the fields of business, education, information systems, nursing, occupational therapy, and psychology.

All graduate programs are accredited through the Higher Learning Commission. The Center for Graduate Studies has received accreditation for the MBA program through the International Assembly for Collegiate Business Education (IACBE), located in Lenexa, Kansas, USA. The Occupational Therapy program also has additional accreditation through the Accreditation Council for Occupational Therapy Education (ACOTE).

ACADEMIC WELCOME EXPERIENCE

An Introduction to Your Life at Baker College

The Academic Welcome Experience provides students with a smooth and helpful transition to college life. Students will become familiar with campus life, academic requirements, student expectations, learning environments, and the many services and resources available to them. It is also an important time for forming relationships and connections with fellow students, program advisors, and other members of the Baker College community.

Throughout the Academic Welcome Experience, students participate in a wide array of academic, intellectual, social, and professional experiences available at Baker College. Students connect with their advisors and participate in informational sessions aimed toward exploring career opportunities, networking with professionals in their fields, and sharing program information.

COLLEGE OF INTERDISCIPLINARY STUDIES Dean of the College of Interdisciplinary Studies: Kirk Astle, Ph.D.

GENERAL EDUCATION PROGRAM REQUIREMENTS

The mission of Baker College is to provide quality higher education and training which enable graduates to be successful throughout challenging and rewarding careers. Required courses in the major field of study are complemented and enhanced by required general education courses. General education provides a foundation of knowledge and skills that every educated person should possess. Its purpose is to stimulate curiosity and promote intellectual inquiry and lifelong learning. General Education course offerings are provided through the College of Interdisciplinary Studies, the School of Education, the College of Social Science, and the College of Health Science.

General Education Mission Statement

General education provides students with an array of critical skills and knowledge essential to the college-educated person in any career path and builds a foundation for more specialized learning.

General Educational Goals

- Provide students with opportunities to develop and refine essential skills in written and oral communication, mathematical reasoning, scientific inquiry, global and cultural awareness, personal and social relations, and information literacy
- Teach a body of common knowledge necessary for students to be successful in professional, intellectual, and social contexts
- Assist students in developing a breadth of knowledge, curiosity, and critical thinking skills
- Promote informed citizenship in an increasingly diverse world
- Advocate lifelong learning

General education requirements must be met for all certificates of substantial length (68 or more quarter hours), as well as for associate and bachelor degree programs. Some degree programs may have general education requirements specific to the program that go beyond the basic requirements. Prerequisites must be met, as required, for each general education course. In most degree programs, the general education requirements are met through general education curriculum. In some programs, however, general education outcomes are met through cognitive experiences, competencies, or application by courses in the program major. All graduates must meet the general education outcome requirements established by each academic program.

BAKER COLLEGE INSTITUTIONAL STUDENT LEARNING OUTCOMES AND THE GENERAL EDUCATION OUTCOMES:

- Career-ready knowledge and skills
- Attitudes and behaviors that promote success in the workplace and effective social interaction with diverse people
- Information literacy which includes recognizing the need for information and identifying, locating, evaluating, and effectively using that information
- Effective communication in various academic and career settings using technology as appropriate
- Critical thinking—including analysis, synthesis, and problem solving—which are applicable to the field of study, the workplace, and other life situations
- Broad-based knowledge which includes an understanding of cultural, ethical, social, political, and global issues

THE FOLLOWING COURSES ARE BAKER COLLEGE'S GENERAL EDUCATION REQUIREMENTS:

CERTIFICATE PROGRAM REQUIREMENTS

GENERAL EDUCATION COURSE REQUIREMENTS FOR CERTIFICATES: 16 QUARTER HOURS

(For Certificates of Substantial Length: 68 or more quarter hours)

Course Number	Course Title	Quarter Hours
COMMUNICATION: 4 QUARTER HOURS		
ENG 101	Composition I	04

MATHEMATICAL REASONING: 4 QUARTER HOURS ONE OF THE FOLLOWING:

MTH 101	Mathematics for Business	04
MTH 108	College Mathematics I: Reasoning and Application	04
MTH 111	Introductory Algebra	04

Or a higher level math course

PERSONAL AND SOCIAL ENVIRONMENTS: 4 QUARTER HOURS

ONE OF THE FOLLOWING:

PSY 101	Human Relations	04
PSY 111	General Psychology	04

COMPUTER LITERACY: 4 QUARTER HOURS

INF 161	Technology and Society	02
ONE OF THE FOLLOWING (ELECT 161A, ELECT 161B, AND ELECT 161C COMPUTER LITERACY ELECTIVES):		
INF 112	Word Processing	02
INF 113	Electronic Spreadsheets	02
INF 114A	Introduction to Database Applications	02
INF 121	Introduction to Windows	02
INF 141A	Microsoft PowerPoint	02

Certificates of less than 68 quarter hours may also contain general education requirements as determined by individual programs.

ASSOCIATE PROGRAM REQUIREMENTS

GENERAL EDUCATION COURSE REQUIREMENTS FOR ASSOCIATE DEGREES: 32 QUARTER HOURS

Course Number	Course Title	Quarter Hours
---------------	--------------	---------------

COMMUNICATION: 16 QUARTER HOURS

SCI 246	Chemistry I	04
SCI 251	General Physics I	04
SCI 321	Principles of Astronomy	04
SCI 451	Environmental Science	04

PHILOSOPHY OF DEVELOPMENTAL EDUCATION

The mission of developmental education is to provide preparatory experiences which enable students to demonstrate academic skills necessary to complete a college-level course of study.

Developmental Education Goals

- Provide appropriate educational opportunities and services
- Ensure proper placement of students
- Maintain high academic standards that support student success in college-level courses
- Enhance the quality of student learning
- Promote continued development and application of adult learning theory, adhering to best practices
- Provide students with opportunities to build strong foundational skills
- Be sensitive and responsive to individual differences among students
- Promote a collaborative and supportive environment for faculty, staff, and students

Developmental Education Objectives

- Entry-level students will demonstrate appropriate placement.
- Students will use developmental education resources provided by the College.
- Students will demonstrate reasoning, communication, and comprehension skills required for college-level work.
- Students will demonstrate competency in writing and mathematics.

THE FOLLOWING COURSES ARE DESIGNED TO MEET THE ABOVE OBJECTIVES:

Course Number	Course Title
ENG 096	Academic Literacy
MTH 099E	Pre-Algebra

In addition to these developmental education courses, other developmental courses, specific to a program area, may be required. See individual program requirements for details.

Baker College supports its Right-to-Try Admissions Policy with several educational services. Some students who enter Baker College require assistance to meet the pressures of an academic community. Because of this, Baker College provides these students with a developmental education program which enables them to achieve success in college and their future careers.

Placement Options

- High School GPA requirements for students who graduated within the last five years
- ACT, SAT, and other specific test scores
- Fast Track options
- Waivers
- Transfer Credit

Developmental Courses

- Students with below college-level English writing skills, as determined by the results of placement options, are required to enroll in Academic Literacy (ENG 096).
- Students with below college-level mathematics skills, as determined by the results of placement options, are required to enroll in Pre-Algebra (MTH 099E).
- Students who place into these developmental areas should take the developmental course(s) the first quarter. Students who place in both the English and mathematics courses must attend part time (less than 12 credits) during their first quarter. These courses must be completed prior to enrolling in a college-level general education English or mathematics course.
- Students must successfully complete all required developmental education courses. Students unable to successfully complete (pass) any one or more of the developmental education courses (ENG 096 or MTH 099E) within three attempts, including withdrawals, will face academic dismissal from the College. For both the second and third attempts, students are placed on a Student Learning Contract. (A second attempt contract serves as a warning, and a third attempt contract serves as notice of the student facing academic dismissal.)

Forty years ago, only one out of four jobs needed more than a high school education. Today, two out of three require additional training. Meanwhile, high-paying high-tech jobs are unfilled across the U.S. in agriculture, automotive, diesel, heating and cooling, interior design, truck driving, welding, and other industrial technology sectors. There are hundreds of thousands of good jobs—but only for those with the right skills.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an “Undeclared but Degree Seeking” program. A student also may add a limited number of “Student Elected Classes” to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

CERTIFICATE PROGRAMS

AUTOBODY TECHNICIAN

Certificate

The autobody technician must use specialized tools and equipment to remove dents and other damage from body panels or replace the panels entirely. Once repairs have been completed, those components or the entire vehicle must then be painted. This program prepares graduates for work in this area and includes coverage of plastic, glass, and interior repairs.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

This program is accredited on the Flint campus

Course Number	Course Title	Quarter Hours

QUARTER HOURS REQUIRED FOR GRADUATION		60

AUTOMOTIVE SERVICES TECHNOLOGY

Certificate

Automotive Service Technicians use specialized tools and equipment to diagnosis and repair automobiles and light trucks. Work is performed inside the vehicle, under the hood, and under the vehicle. While physical dexterity is required, there are some procedures that can be performed at a work bench. This program prepares students for entry-level positions and helps prepare them to perform successfully on the certification and licensure exams required in this career path.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

DIESEL SERVICE TECHNOLOGY

Certificate

This program prepares graduates to maintain, diagnose, and repair medium-duty and heavy-duty vehicles to perform successfully on the certification exams required for all persons who seek to work in positions as diesel mechanics/technicians in the state of Michigan. The program will focus on electrical systems, diesel engines, heavy-duty brakes and suspensions along with other certification/licensure areas as selected by the student.

Diesel courses are taught in the Auto/Diesel Institute of Michigan (autodieselinstitute.com)

Baker College of Owosso is a Michigan CAT preferred college. This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

The Auto/Diesel Institute of Michigan is the only college in Michigan with Master Accreditation from the National Automotive Technicians Education Foundation for Diesel Service.

TRUCK DRIVING

Certificate

This program is offered with multiple start dates throughout the year. It prepares graduates for entry-level positions as local or long-distance drivers of commercial motor vehicles (CMV), heavy trucks, dump trucks, and tankers. Courses are designed to enable students to sit for the state of Michigan Commercial Driver Licensing Class A exam. Job potential for this field is excellent.

The Truck Driving Certificate meets all state and federal requirements for truck driver training. Applicants for the Truck Driving Certificate must: 1) be at least 18 years of age, 2) have a valid operator's license that is not currently (or within the immediate past 36 months) suspended or revoked, 3) meet all physical requirements specified in The Federal Motor Carrier Safety Regulations, and 4) provide/ pass a current DOT physical and NIDA drug screen to Baker College. This program is certified by the Professional Truck Driver Institute (PTDI), 555 East Braddock Road, Alexandria, VA 22314; (703) 647-7015; Web address: www.ptdi.org at our Cadillac and Flint locations.

WELDING

Certificate

Students successfully completing this program will have acquired the knowledge and skills necessary for entry-level employment in the welding industry. Career opportunities include Welding Engineer, Welding Inspector, Structural Iron Worker, Custom Vehicle Designer, or Metal Art Sculptor. Skills and knowledge presented in the program include oxy-acetylene welding, cutting and brazing, shielded metal arc welding (SMAW), gas metal arc welding (GMAW/MIG), gas tungsten arc welding (GTAW/TIG), and flux-cored arc welding (FCAW), along with destructive weld testing methods. The curriculum is designed to meet or exceed the requirements set forth by the American Welding Society (AWS).

ASSOCIATE DEGREE PROGRAMS

AGRICULTURE TECHNOLOGY

Associate of Applied Science Degree

The Baker College agriculture technology program provides students with the advanced training necessary to compete in today's technology-driven farming industry. Students completing the program will have acquired knowledge and skills in agribusiness, weed and insect management, plant science and agronomy, sustainable agriculture, viticulture, agriculture equipment and tools, and the use of agricultural computer and technology systems. Additionally, students may select an agribusiness path and focus on marketing and management, an animal science path and learn about animal husbandry and veterinary science, or a technology path and develop skills to select, install, and maintain agricultural technology equipment including global positioning systems (GPS), auto steering systems, and soil sampling and mapping systems.

AUTOBODY TECHNICIAN

Associate of Applied Science Degree

The autobody technician must use specialized tools and equipment to remove dents and other damage from body panels or replace the panels entirely. In heavy damage, the frame and/or uni-body must also be repaired. The repairs or the entire vehicle must then be painted. This program prepares graduates for work in this area and includes coverage of plastic, glass, and interior and mechanical system repairs.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

This program is accredited on the Flint campus.

AUTOMOTIVE RESTORATION TECHNOLOGY

Associate of Applied Science Degree

The Restoration Technology program prepares students in the field of automotive restoration by emphasizing the values of craftsmanship and historical authenticity. This program trains students with time tested methods and traditional auto body training. Training focuses on the restoration of classic and vintage automobiles. Graduates will be prepared for entry-level positions within the restoration and the auto body repair industry.

AUTOMOTIVE SERVICES TECHNOLOGY

Associate of Applied Science Degree

Automotive Service Technicians use specialized tools and equipment to diagnosis and repair automobiles and light trucks. Work is performed inside the vehicle as well as under the hood and under the vehicle. While some amount of physical dexterity is required, there are some procedures that can be performed at a work bench. Students in this program will be trained in multiple certification areas in preparation for ASE certification as well as state of Michigan licensure.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

AUTOMOTIVE SERVICES TECHNOLOGY - MOPAR CAP

Associate of Applied Science Degree

The MOPAR CAP (College Automotive Program) and The Auto/Diesel Institute of Michigan (ADI) at Baker College of Owosso have established a partnership to provide Chrysler Group LLC specific training designed for automotive students to help support Chrysler Group LLC dealerships with talented service technicians capable of servicing today's complex vehicles. The ADI/CAP partnership follows the same NATEF curriculum guidelines as the existing Automotive Service Technology program. Additionally, students are required to intern at a CAP sponsored dealership as part of their program requirements.

Prerequisite: Sophomore status.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

DIESEL SERVICE TECHNOLOGY

Associate of Applied Science Degree

This program prepares graduates to maintain, diagnose, and repair medium-duty and heavy-duty vehicles and to perform successfully on the certification exams required for all persons who seek to work in positions as diesel mechanics/technicians in the state of Michigan. The program focuses on electrical systems, diesel engines, diesel engine performance, preventative maintenance, heavy-duty brakes, and suspensions along with other areas as selected by the student.

Diesel courses are taught in the Auto/Diesel Institute of Michigan (autodieselinstitute.com)

Baker College of Owosso is a Michigan CAT preferred college.

This program is accredited by the National Automotive Technicians Education Foundation (NATEF), 13505 Dulles Technology Drive, Herndon, VA 20171-3421; www.natef.org

The Auto/Diesel Institute of Michigan is the only college in Michigan with Master Accreditation from the National Automotive Technicians Education Foundation for Diesel Service.

INTERIOR DESIGN

Associate of Applied Science Degree

This program prepares students for entry-level positions in interior design as well as kitchen and bath design. Students apply elements and principles of design, space planning, textiles, and furnishings as they relate to residential and commercial interiors. Basic drafting, drawing, and presentation skills are emphasized throughout the program. Applying current technology, students develop and present projects stressing public health, safety, and welfare. They gain a basic understanding of interior design practice and the industry as a whole. The program provides a solid foundation for further study in the interior design field.

This program is accredited by the National Kitchen and Bath Association (NKBA), 687 Willow Grove Street, Hackettstown, NJ 07840; (800) 843-6522.
This program is accredited on the Auburn Hills campus.

BACHELOR DEGREE PROGRAM

INTERIOR DESIGN

Bachelor of Science

This program is designed to enhance residential design skills with a concentration in commercial design. Design projects prepare students to work in a contract design studio and/or architectural facility. Students select and specify appropriate materials and furnishings according to industry codes and standards, and apply knowledge to manual and computer generated drawings. Current building codes and guidelines will be applied to contractual documents in compliance with sustainable and universal design. Presentational skills are proficiently applied to advanced rendering illustrations and oral presentations. Business courses enhance professionalism and provide a solid foundation for dealing with the corporate world. The program and courses were designed in accordance with the CIDA (Council for Interior Design Accreditation) Professional Standards.

The mission of the Business Administration Division is to enable graduates to meet the challenges of the dynamic and complex business environment. Our quality-focused, market-driven, and rigorous program curricula will establish and enhance core business knowledge and ability to anticipate and react to societal changes, as well as provide students with technological proficiency, the ability to make ethical decisions, and the communication skills that embody the professional acumen graduates need to make positive contributions to their chosen fields.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an “Undeclared but Degree Seeking” program. A student also may add a limited number of “Student Elected Classes” to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

International Assembly for Collegiate Business Education • IACBE.org

Baker College has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE) located at 11374 Strang Line Road in Lenexa, Kansas. Web Address: www.iacbe.org. The business programs designated with an asterisk (*) are accredited by the IACBE.

CERTIFICATE PROGRAMS

BAKING AND PASTRY

Certificate

The one-year Baking and Pastry Arts program certificate is designed to prepare graduates for employment in retail deli-bakeries, fine dining restaurants, pastry and bakery shops, commercial baking, and hotel and resort bake shops. The program combines extensive hands-on training and classroom study to prepare students in the baking and pastry field. Successful graduates will be prepared to enter the workforce and obtain positions such as assistant pastry chef, assistant baker, lead baker, or wedding cake decorator. Students receive extensive training in the development and preparation of breads, pies, cookies, specialty breads and pastries, fruit bars, tortes, and international desserts. In addition, the curriculum also includes classes in management, food safety and sanitation, and nutrition.

ASSOCIATE DEGREE PROGRAMS

ACCOUNTING

Associate of Business Degree

This program prepares students for entry-level positions in the accounting field. The coursework will develop the skills necessary to record, present, and analyze financial data as well as provide learning experiences that will shape the competencies required for successful office management, accounting clerk, staff accountant, and bookkeeper positions. Students wishing to obtain the national certification for bookkeepers may elect this option. Students who desire CPA licensure should elect the BBA Accounting program.

BAKING AND PASTRY

Associate of Applied Science Degree

This program trains and prepares graduates for pastry chef and other bakery supervisory positions. People with baking and pastry skills are employed in retail bakeries, fine dining restaurants, pastry and bakery shops, commercial baking operations, country clubs, and hotel and resort bake shops, where they utilize their experiences to artfully prepare baked goods, specialty breads and pastries, cookies, petit fours, wedding cakes, specialty sugar and chocolate showpieces. This program also prepares graduates to skillfully manage the respective operations as well as prepare them for leadership roles in the bakeshop and in the special knowledge and techniques used in professional baking and pastry outlets. Typical duties include production of pastries, staff selection and training, purchasing, inventory control, item costing and overall bakeshop management.

CULINARY ARTS

Associate of Applied Science Degree

This program trains and prepares graduates for chef and other kitchen supervisory positions. People with culinary arts skills are employed in restaurants, hotels, institutional settings, delis, and catering companies, where they utilize their experience to artfully prepare culinary specialties and skillfully manage these respective operations. This program prepares graduates for leadership roles in the kitchen and in the knowledge and techniques used in quantity gourmet food preparation. The Baker College Culinary Arts Program in Muskegon is accredited with Exemplary status by the ACF (American Culinary Federation) accrediting commission. Successful graduates will be eligible to take their Certified Culinarian Certification examination. Instruction is provided through a combination of classroom, hands-on labs, and internship experience.

Table with 4 columns: Course Number, Course Title, Quarter Hours, and a summary row for Culinary Arts Major (87 hours) and General Education Requirements (32 hours).

FOOD AND BEVERAGE MANAGEMENT

Associate of Applied Science Degree

This program provides training in the supervision and management of food and beverage operations focusing on food preparation, dining room services, and beverage operations. This program provides a combination of extensive laboratory hands-on training, cooperative work experience, and classroom training. Successful graduates will be prepared for careers as supervisors in food and beverage operations, in restaurants, hotels, hospitals, delis and catering operations, and in corporate food settings. Successful graduates will be prepared to work in such positions as assistant chefs, assistant dining room and/or catering managers, catering and event sales people, assistant managers, assistant food and beverage directors, and as food and beverage owners/operators.

Table with 4 columns: Course Number, Course Title, Quarter Hours, and a summary row for Food and Beverage Management Major (79 hours) and General Education Requirements (36 hours).

PARALEGAL

Associate of Business Degree

This program is designed to offer education in paralegal studies. Core courses prepare students to assist attorneys by drafting legal documents, interacting with clients, and assisting in court. Students will conduct research and prepare memoranda to aid attorneys in resolving legal issues. Students will learn to assist attorneys with discovery, which includes responding to interrogatories, producing documents, and interviewing witnesses. Students may use their paralegal education in private law firms, corporations, nonprofit organizations, court systems, real estate title companies, banks, insurance companies, healthcare companies, and local, state, and federal government agencies. A paralegal is qualified by education, training, or work experience to be employed or retained by a lawyer, law office, corporation, governmental agency, or other entity and performs specifically delegated substantive legal work for which a lawyer is responsible. Paralegals may not provide legal services directly to the public except as permitted by law. This program has been approved by the American Bar Association at the Auburn Hills and Clinton Township campuses.

BACHELOR DEGREE PROGRAMS

ACCOUNTING

Bachelor of Business Administration

This program emphasizes practical application as well as the theoretical aspects of the discipline of accounting to prepare students for professional careers in public, managerial, and governmental accounting and/or advanced study within the discipline. Students will gain an understanding of the social, ethical, economic, legal, and regulatory environment in which businesses operate and develop the problem-solving, decision-making, communication, and leadership skills necessary to compete in a dynamic global marketplace. Students completing this degree are eligible to sit for the Uniform Certified Public Accountant Examination in Michigan (see below).

Beginning July 1, 2003, students pursuing a CPA licensure in the state of Michigan will be required to have obtained 225 quarter hours of credit prior to applying for a CPA license. While the BBA Accounting Program satisfies the requirements to sit for the Uniform Certified Public Accountant Examination, additional credit is needed for licensure. Individuals are therefore advised to contact the Michigan State Board of Accountancy Licensing Bureau for further information. Students wishing to become eligible to sit for the examination in other states are recommended to check with the National Association of State Boards of Accountancy (www.nasba.org), which serves as a forum for the 54 U.S. boards of accountancy, for the state in which they intend to practice.

Bachelor of Business Administration

Turn previous college credits and work experience into a bachelor degree—in just one to two years. Whether the student has earned an associate degree or an assortment of college credits, Baker College can consolidate transcripts—and turn work experience into credits—toward a Bachelor Degree in Business Administration.

This program is designed for the transfer student, military servicemember, or working professional and combines core coursework with experiential credit to provide a contemporary business degree for today's business environment. Elective credit requirement may be satisfied through portfolio, transfer credit, or additional coursework.

This program is designed to help you earn a bachelor degree as quickly and conveniently as possible. Transfer in up to 132 hours of credit in any combination of General Education, Electives, and Core Competencies. Classes are available at all twelve of our Michigan locations and can be completed on-campus, online, or a combination of both.

FINANCE

Bachelor of Business Administration

This program emphasizes finance as the study of resource allocation, which includes financial markets, instruments, individuals, and institutions that manage money and assets. Students gain an understanding of financial theory and practice from various perspectives including banking, financial services, financial planning, and corporate finance. Students also gain an understanding of the social, ethical, economic, legal, and regulatory environment in which businesses operate and develop the problem-solving, decision-making, communication, and leadership skills necessary to compete in a dynamic global marketplace. Graduates from this program may enter the fields of corporate finance, investment banking, financial markets and services, and insurance.

FOOD AND BEVERAGE MANAGEMENT

Bachelor of Science

A Food and Beverage Manager is responsible for the total management of a food service operation. In this program, students combine classroom, hands-on laboratory, and cooperative education experience. Students learn staff selection and training, menu planning, purchasing and inventory control, coordination of marketing activities, dining room management, bar management, and the overall management of a food service operation. With completion of this program, graduates will have the knowledge and skills essential for a position as a general food service manager, restaurant and dining room manager, bar manager, wine or beer distribution representative, wine steward, banquet and catering director, catering and event director/coordinator, or food service owner/operator. Graduates are prepared for a range of employment opportunities—commercial and private restaurants, hotels, hospitals, deli and catering operations, schools, or corporate food settings.

LEGAL STUDIES

Bachelor of Science

This program offers students the opportunity to obtain a Bachelor of Science in Legal Studies and receive a quality higher education and appropriate training to enable them to be successful in their careers as paralegals. This program provides students with practical paralegal skills in conjunction with a well-rounded education in anticipation of their service in a modern, multi-cultural society. Highly competent graduates will be able to assist attorneys in various areas of law and in diverse legal settings. These objectives are met through carefully designed, application-driven academic requirements; practical internship experience; and academic advising throughout the program.

A paralegal is qualified by education, training, or work experience to be employed or retained by a lawyer, law office, corporation, governmental agency, or other entity and who performs specifically delegated substantive legal work for which a lawyer is responsible. Paralegals may not provide legal services directly to the public except as permitted by law. This program has been approved by the American Bar Association at the Auburn Hills campus only.

MANAGEMENT

Bachelor of Business Administration

The objective of this program is to train broadly competent managers for leadership roles in a wide variety of organizations public or private, product or service oriented, profit or not-for-profit. To accomplish this basic objective, this program offers students the opportunity to acquire knowledge about the management of human and physical resources and to acquire skills useful in the management of any organization. This program emphasizes the importance of effective oral and written communication, teamwork, decision making, entrepreneurial management, and diversity in the business environment. In addition, this program introduces students to the application and strategic use of the acquired knowledge and skills in areas such as personnel management, organizational behavior, production management, international business, and small business.

MARKETING

Bachelor of Business Administration

Marketers provide the link between businesses that have goods and services to sell and customers who want to purchase them. The marketing process involves a variety of activities including research, strategic planning, product development, sales management, and marketing communications. Students in this program participate in active learning and demonstrate an understanding of basic business principles using case studies, business simulations, computer technology, spreadsheets, written reports, problem analysis, professional presentations, ethical values, a global perspective, and human relations skills through individual and team activities in class and in business situations. This degree offers a solid background in the concepts of marketing and business. A marketing degree can lead to a career in such areas as marketing management, marketing research, personal selling and sales management, retail merchandising and management, and promotional strategy and management.

SUPPLY CHAIN MANAGEMENT

Bachelor of Business Administration

This program provides the skills and knowledge required to be successful throughout a challenging and rewarding career within a supply chain management occupation. Graduates will have opportunities that utilize a multitude of talents and skills, providing an invigorating and exciting career that never grows stagnant. Potential occupations include demand planner, project manager, vendor-managed inventory analyst, logistics analyst, warehouse management, production planner, and transportation specialist. According to the Council of Supply Chain Management Professionals, the supply chain management industry is one of the fastest growing industries within the United States and the world with logistics alone accounting for 9.5% of the U.S. Gross Domestic Product.

Students finishing this program will have completed a well-rounded curriculum including business and general education cores, as well as the major core that examines all aspects of the industry from raw materials to end users and everything in between. Global perspectives combined with cultural diversity are interwoven within the curriculum creating an awareness of today's business environment that the students will ultimately compete within. For additional information regarding this program, please visit the Baker College website at www.baker.edu/programs.

For more information or to see program videos, please visit baker.edu.

There is significantly higher demand for educators who specialize in certain areas, such as early childhood education and mathematics, as well as those with licenses in multiple subjects. Salary, advancement, and job satisfaction increase with each additional certification and degree.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an "Undeclared but Degree Seeking" program. A student also may add a limited number of "Student Elected Classes" to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus Education staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

Baker College Centers for Excellence in Education (located on the Clinton Township, Muskegon, and Owosso campuses) offer all Education programs in their entirety. Students may complete, at minimum, the first two years of any Education program at these campus locations: Allen Park, Auburn Hills, Cadillac, Flint, and Jackson. Education programs started on one of these campuses may then be completed by attending classes at one of the Centers of Excellence, or through a combination of attending a Center of Excellence, online coursework, or distance learning.

The Baker College Teacher Education Program is awarded TEAC accreditation by the Inquiry Brief Commission of the Council for the Accreditation of Educator Preparation (CAEP) for a period of five years, from October 26, 2014 to October 26, 2019. The accreditation does not include individual education courses that the EPP offers to P-12 educators for professional development, re-licensure, or other purposes. Teacher Education Accreditation Council (TEAC): www.teac.org. Council for the Accreditation of Educator Preparation (CAEP): www.caepnet.org.

The Early Childhood Education Associate Degree Program is accredited by the National Association for the Education of Young Children (NAEYC). 1313 L. Street NW, Suite 500, Washington, DC 20005; phone: 202-232-8777, toll free: 800-424-2460 or 866-NAEYC-4U; Web address: www.naeyc.org.

CERTIFICATE PROGRAM

CDA ACADEMIC FOUNDATIONS

Certificate

This program is designed to assist home learning providers and GSRP or Head Start teacher assistants or aides to earn their CDA Credential—Center Setting, Pre-school, ages 3-5—from the Council for Professional Recognition, while they continue to work. This Baker College certificate program starts in the fall and consists of seven courses to be completed in one year. In this program, you will meet the academic requirements needed for the CDA Pre-school Credential. You will also meet the resource file requirements needed for the CDA Pre-school Credential, and be eligible to apply for part-time financial aid from Baker College and/or the Michigan T.E.A.C.H program.

ASSOCIATE PROGRAM

EARLY CHILDHOOD EDUCATION

Associate of Applied Science Degree

This program prepares students for employment opportunities as a child care program director, a pre-school teacher, a teacher assistant, or a family child care manager. Students learn to plan and organize age appropriate curricula and environments for infants, toddlers, pre-school-age children, and school-age children in before and after school settings. This program examines current challenges that early childhood educators will face as they enter this contemporary profession. Characteristics, skills, knowledge, and experiences important in becoming a teacher of young children are presented to the student. Students are involved in several hours of fieldwork experience within various child care settings. This program prepares the student for the Child Development Associate (CDA) assessment process, the national credential recognized by the Council for Professional Recognition. The CDA credential is an entry-level credential that provides a broad foundation in early childhood education. This program does NOT lead to elementary (K-12) certification.

The Early Childhood Education Associate Degree Program is accredited by the National Association for the Education of Young Children (NAEYC).
1313 L Street NW, Suite 500, Washington, DC 20005; phone: 202-232-8777, toll free: 800-424-24600 or 866-NAEYC-4U; Web address: www.naeyc.org.

BACHELOR DEGREE PROGRAMS

EARLY CHILDHOOD EDUCATION

Bachelor of Science in Early Childhood Education

This program prepares students for a rewarding career in Early Childhood Education. It will blend higher-level critical applications of the theoretical and practical study of child development and early childhood education in a multitude of professional applications. The Early Childhood Education Bachelor Degree program will require four years of college preparation. The goal of this program is to produce quality Early Childhood Education professionals. Successful graduates may be employed in supervisor and administrative positions, as family advocates, pre-school teachers, home visitors, directors, curriculum developers, and child advocates. This program does NOT lead to elementary (K-12) certification.

POSTBACCALAUREATE CERTIFICATES

ELEMENTARY EDUCATION - LEVEL CHANGE

Postbaccalaureate Certificate

This program provides teachers with the knowledge and skills needed to add an elementary endorsement to an existing Michigan Secondary Teaching Certificate, allowing the holder to teach all subjects in kindergarten through grade 5 and in kindergarten through grade 8 self-contained classrooms. The level change may also extend the validity of existing endorsements to additional grade levels. Students complete the elementary studies minor and a portion of the professional education core that is specific to working with elementary students. Upon completing the program and passing the required state test, students will be eligible to apply for the endorsement.

Program Requirements: Bachelor Degree

ELEMENTARY EDUCATION AND EARLY CHILDHOOD EDUCATION - LEVEL CHANGE

Postbaccalaureate Certificate

This program provides teachers with the knowledge and skills needed to add both an elementary and an early childhood endorsement to an existing Michigan Secondary Teaching Certificate, allowing the holder to teach all subjects in general and special education pre-school, all subjects in kindergarten through grade 5 and in kindergarten through grade 8 self-contained classrooms. Students complete both the elementary comprehensive and early childhood ZS majors (General and Special Education), and a portion of the professional education core that is specific to working with elementary students. Upon completing the program and passing the required state test, students will be eligible to apply for the endorsements.

Program Requirements: Bachelor Degree

Engineers apply mathematics and sciences to find suitable solutions to problems and to design new products that improve our lives. If multiple options exist, engineers weigh different design choices on their merits and choose the solution that best matches the requirements. The crucial and unique task of the engineer is to identify, understand, and interpret the constraints on a design in order to produce a successful result.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an "Undeclared but Degree Seeking" program. A student also may add a limited number of "Student Elected Classes" to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

ASSOCIATE DEGREE PROGRAMS

ADVANCED MANUFACTURING TECHNOLOGY

Associate of Applied Science Degree

Manufacturing in America relies increasingly on advanced design software and programming skills that were unknown to past generations of machinists. In the first year of this two-part degree program, students gain the essential Computer Numerical Control (CNC) knowledge and experience needed to operate today's technologically advanced manufacturing lathes, turning centers, mills, routers, and other machines. The second year of this program provides advanced software training in Mastercam, AutoCAD, and SolidWorks preparing students to design new products and write the CNC programs to manufacture them. Graduates of this well-rounded program can anticipate many opportunities in 21st century manufacturing careers.

COMPUTER AIDED DESIGN

Associate of Applied Science Degree

Everything we use in our day-to-day lives has been designed by someone. CAD Designers use computer-aided techniques for the creation of 3D models and production drawings. Computer-aided design is used in all industries including entertainment, healthcare, commercial food preparation, packaging, aerospace, furniture, and automotive manufacturing. This program prepares graduates for positions as designers with a focus on total design along with the communication/integration of the design of related parts or components. Students will learn to create 2D drawings and 3D models as well as obtain knowledge of manufacturing processes such as welding and sheet metal, engineering materials, and the use of precision measuring tools. Graduates may find positions in design areas such as product design, machine design, gauge and fixture design, or in preparing CAD drawings/models for publication on the Web.

MECHANICAL TECHNOLOGY

Associate of Applied Science Degree

The Mechanical Technology Program is designed to prepare students for employment in mechanical design, manufacturing, and production industries. This program is designed for students interested in entry-level positions as well as experienced technicians who wish to improve their skills. Emphasis is placed on computer-aided design (CAD) along with the mathematical and communication skills required to function effectively as part of an engineering team.

This program provides the foundation courses in science and mathematics leading graduates to a Bachelor of Science in Mechanical Engineering, which can be completed in three additional years.

MECHATRONICS

Associate of Applied Science Degree

The Michigan Advanced Technician Training program is an innovative, industry-driven approach to education. This program prepares students to become general service technicians in a wide variety of manufacturing settings, with skills in electronics, mechanical systems, robotics, pneumatics, hydraulics, CNC, and systems that integrate all of these technical fields. Students will qualify for US Department of Labor apprenticeship certification upon completion of the program. MAT2 programs were developed throughout the state of Michigan in conjunction with global industry technology leaders to combine theory, practice, and work to train a globally competitive workforce. MAT2 addresses two critical issues facing the manufacturing and technology industries: a widening skills gap and an aging workforce. This initiative program functions similarly to an apprenticeship program, in which students alternate between classroom instruction and on-the-job training, gaining the necessary hands-on skills and real-world experiences to become a successful and productive member of the workforce.

PHOTONICS AND LASER TECHNOLOGY

Associate of Applied Science Degree

Photonics is the technology of generating, transmitting, and manipulating light. Photonics is used in a broad range of industries such as aerospace, agriculture, alternative energy, biotechnology, chemical, communications, construction, entertainment, environmental technology, homeland security, lighting and illumination, medicine, and manufacturing. The technology is growing with new applications being constantly developed, and the career prospects for photonics technicians are bright. The Photonics and Laser Technology program at Baker College has been developed with industry input and prepares students to build, test, install, operate, maintain, and repair laser and electro-optic devices and systems.

BACHELOR DEGREE PROGRAMS

CIVIL ENGINEERING

Bachelor of Science

According to the Bureau of Labor Statistics, civil engineers are expected to have employment growth of 20 percent over the projections decade, much faster than the average for all occupations. Spurred by general population growth and the related need to improve the nation's infrastructure, more civil engineers will be needed to design and construct or expand transportation, water supply, and pollution control systems, and buildings and building complexes. Civil engineers design and supervise the construction of roads, buildings, airports, tunnels, dams, bridges, and water supply and sewage systems. They must consider many factors in the design process from the construction costs and expected lifetime of a project to government regulations and potential environmental hazards such as earthquakes and hurricanes. This program will prepare students to enter this exciting, high demand field enabling graduates to pursue challenging and rewarding careers.

CONSTRUCTION MANAGEMENT

Bachelor of Science

This program provides an education focusing on critical thinking that blends management with technology and liberal arts for a career in construction and related industries. The graduate provides leadership while working with the owner, architect, engineer, developer, contractor, and governmental agencies, using their professional knowledge to oversee the construction process. Graduates learn various skills to manage construction projects globally and sustainably to maximize product and overall project value for owners. A combination of architecture, construction, and management courses provide a strong foundation in the critical skills and knowledge needed by professionals. The program emphasizes project management skills rather than craft skills. Graduates of this program may begin their careers in a variety of positions involving construction project management, cost estimating, construction safety, project planning/scheduling, and contract administration.

ELECTRICAL ENGINEERING

Bachelor of Science

Electrical and electronic engineers design, develop, test, and supervise the manufacture of electrical and electronic equipment, such as electric motors, control systems, radar and navigation systems, and communication systems. Traditionally electronics engineers focus on electronic systems, instrumentation, control systems, signal processing and telecommunications, while electrical engineers focus on power and energy transmission applications, including renewable energy sources and other green technologies. The Electrical Engineering program at Baker College will prepare students for either of these exciting, high-demand fields enabling graduates to pursue challenging and rewarding careers.

INDUSTRIAL ENGINEERING

Bachelor of Science

Industrial engineers work in manufacturing, service industries, entertainment industries, healthcare organizations, shipping and logistics, and many other organizations. They focus on improving productivity and efficiency, and reducing costs while ensuring the quality of products and services, as well as the safety of the workplace. Industrial engineers often transition to managerial positions due to their combined engineering and business background and exposure. This program prepares graduates for entry-level positions in this exciting field. The need for industrial engineers continues to grow as companies strive to control costs and maintain a competitive edge.

MECHANICAL ENGINEERING

Bachelor of Science

The mission of the Baker College Department of Mechanical Engineering is to provide quality higher education and training in the fundamental principles and sound practice of engineering which will enable graduates to be an asset to society and successful throughout challenging and rewarding careers. Mechanical engineers are involved in the design, development, manufacturing and testing of a wide array of mechanical devices, systems, and processes. They work in diverse areas such as power generation and utilities, aerospace, automotive and transportation, automation and robotics, environmental, chemical, computer, and biomedical industries. Mechanical engineers also work in research, education, and consulting. In all these fields they combine creativity and use of engineering principles to improve the quality of our lives. Courses from programs not accredited by Engineering Accreditation Commission of ABET will not be accepted for transfer at the 200 level or above, unless supported by detailed curriculum documentation, subject to approval by the Dean.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. This program is accredited on the Flint campus.

For more information or to see program videos, please visit baker.edu.

As the population ages, demand for skilled healthcare practitioners will continue to grow, creating more career opportunities than any other field. Since 2009, 37% of all new jobs have been created in the healthcare sector. Between 2012 and 2022 it will add up to 5 million new jobs! This demand is also driving up salaries. Since 2006, healthcare has seen the biggest wage increase of any sector of the economy.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an “Undeclared but Degree Seeking” program. A student also may add a limited number of “Student Elected Classes” to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Students will be required to pass a health screening and a criminal background check prior to particular courses, admittance into programs, or for their clinical externship. This applies to all health programs.

*Enrollment into the professional track of some programs is limited due to clinical site availability. Students compete to earn acceptance into these programs. Selection criteria have been developed to choose the most qualified students for limited enrollment programs. Students who have successfully completed the prerequisite courses for their program are eligible to apply for admission into the professional track of the program. Refer to the program information supplement for program specific details on the application process, the criteria used, and the courses used in the GPA calculations.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

*The Baccalaureate Post-licensure and Pre-licensure Nursing programs at Baker College are accredited by the Commission on Collegiate Nursing Education (CCNE); One Dupont Circle, NW, Suite 530, Washington, DC, (202) 887-6791.

COLLEGE OF HEALTH SCIENCE

UNDERGRADUATE PROGRAMS

Dean of the College of Health Science: Lisa Radak, MBA, BHS, RT (R) (T) (CT)

Associate Dean of the College of Health Science: Rebecca Voelker, MBA, BHSA, CMA (AAMA)

CERTIFICATES

Emergency Medical Technician - Basic	PG. 94
Emergency Medical Technician - Paramedic	PG. 94
Phlebotomy Technician	PG. 95
Sterile Processing Technician	PG. 95
Therapeutic Massage	PG. 96

Dean of the School of Occupational Therapy:
Jo Anne Crain, Ph.D.

Occupational Therapy Assistant - Associate Degree	PG. 112
Pre-Occupational Therapy - Bachelor Degree	PG. 113

CERTIFICATE PROGRAMS

EMERGENCY MEDICAL TECHNICIAN - BASIC (EMT)

Certificate

The Emergency Medical Technician-Basic program serves as entry-level training to students looking to pursue a career in emergency medical care. EMTs work in emergency response vehicles, hospitals, dialysis units, casinos, and other areas where an emergency could arise. Rapid in-field treatment and transport to higher medical providers is the primary coursework. Hospital rooms and ambulances will become the hands-on classrooms for Baker College students as they gain the needed real world experience of becoming qualified Emergency Medical Technicians.

The Emergency Medical Technician level is the minimum licensure level for personnel transporting patients in ambulances. The scope of practice is limited to basic skills that can be performed safely with medical oversight and limited training.

This program provides a thorough understanding of the role of the emergency medical technician and stresses recognition of abnormal conditions through analysis of diagnostic signs and care for persons with specific illnesses or injury, at the scene and during transport to a medical facility. Successful completion of the program will make candidates eligible to apply for the National Registry of EMTs written exam, which is necessary for licensure in the state of Michigan.

The Emergency Medical Technician - Basic Program is approved by the Michigan Department of Community Health, PO Box 30670, 611 West Ottawa, Lansing, MI 48906; (517) 335-0918.

Program Status: Open Enrollment.

Course Number	Course Title	Quarter Hours
REQUIREMENTS - 24 HOURS		
EMS 101	Basic EMT I	12
EMS 102	Basic EMT II	12
QUARTER HOURS REQUIRED FOR GRADUATION		24

EMERGENCY MEDICAL TECHNICIAN - PARAMEDIC

Certificate

The Paramedic is an allied health professional whose primary focus is to provide advanced emergency medical care for critical and emergent patients who access the emergency medical system. The Paramedic has the knowledge associated with, and is expected to be competent in, all of the skills of the EMR, EMT, and AEMT. The major difference between the Paramedic and the Basic Emergency Medical Technician is the ability to perform a broader range of advanced skills.

This program provides a thorough understanding of the role of the paramedic and stresses recognition of abnormal conditions through analysis of diagnostic signs and care for the persons with specific illnesses or injury, at the scene and during transport to a medical facility. In addition, students will acquire knowledge and skills in advanced topics such as advanced airway, intravenous therapy, cardiology, pharmacology, pediatrics, and trauma care. Special considerations, such as response to incidents involving hazardous materials, terrorist incidents, and emergency vehicle operations are explored. Successful completion of the program will make candidates eligible to apply for the National Registry for EMTs written and practical exams which are necessary for licensure in the state of Michigan. A valid EMT License, certificate of completion, or any transcripts of post-secondary EMT basic education must be presented to the College before beginning EMS 201E.

Baker College Paramedic programs in Cadillac and Clinton Township are accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; Phone: (727) 210-2350, Fax: (727) 210-2354

The Baker College Paramedic program in Muskegon holds a Letter of Review, which is NOT a CAAHEP accreditation status, but is a status granted by the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) signifying that a program seeking initial accreditation has demonstrated sufficient compliance with the accreditation Standards through the Letter of Review Self Study Report (LSSR) and other documentation. Letter of Review is recognized by the National Registry of Emergency Medical Technicians (NREMT) for eligibility to take the NREMT's Paramedic credentialing examination(s); however, it is NOT a guarantee of eventual accreditation. CoAEMSP, 8301 Lakeview Parkway Suite 111-312, Rowlett, TX 75088 Ph: (214) 703-8445, Fax 214-703-8992; www.coaemsp.org

The Emergency Medical Technician-Paramedic Program is approved by the Michigan Department of Community Health, PO Box 30670, 611 West Ottawa, Lansing, MI 48906; (517) 335-0918.

Program Status: Open Enrollment.

PHLEBOTOMY TECHNICIAN

Certificate

This program is designed to prepare students to work as a phlebotomy technician in a variety of medical settings. Students will learn the blood drawing skills in the College laboratory setting and by supervised phlebotomy experiences in medical settings. Additionally, students will understand the pre-analytical variables that affect laboratory specimens and how to work successfully as part of the extended laboratory team. After successful completion of this program students are eligible to sit for one of the national Phlebotomy Technician certification exams.

The Phlebotomy Technician Program at Baker College is approved by the National Accrediting Agency for Clinical Laboratory Sciences, (NAACLS), 5600 N. River Rd., Suite 720, Rosemont, IL 60018-5119; (773) 714-8880.

Program Status: Open Enrollment.

DENTAL HYGIENE

Associate of Applied Science

Dental hygienists are licensed oral health professionals who focus on preventing and treating oral diseases of the teeth and gums, and protection of patients' total health. As part of dental hygiene services, dental hygienists perform oral healthcare assessments that include: patients' health histories, dental charting, oral cancer screening, and taking vital signs (blood pressure, smoking status, and pulse). Additionally, dental hygienists expose, process, and interpret dental radiographs; remove plaque and calculus from the teeth; apply cavity prevention agents; apply sealants; teach patients proper oral hygiene techniques; counsel patients on good nutrition; provide local anesthesia and nitrous oxide for pain and/or anxiety control. Dental hygienists can work as clinicians, educators, researchers, administrators, managers, consumer advocates, sales managers and consultants. They may work in a variety of healthcare settings such as private dental offices, schools, public health clinics, hospitals, correctional institutions, or nursing homes. Successful completion of the program allows graduates to sit for the National Dental Hygiene written board examination, along with the required regional board examinations required for licensure to practice.

The program in dental hygiene is accredited by the Commission on Dental Accreditation of the American Dental Association, 211 East Chicago Ave., Chicago, ILL, 60611; Phone: (312) 440-4563. This is a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and by the United States Department of Education. Please reference www.ada.org/coda for further information.

DIAGNOSTIC MEDICAL SONOGRAPHY

Associate of Applied Science

Through academic and clinical training, students are prepared for a career in Diagnostic Medical Sonography that provides patient care while utilizing diagnostic ultrasound equipment. Students will use knowledge gained in this program, experience close patient contact, and utilize diagnostic ultrasound equipment to provide physicians with images necessary to diagnose conditions and diseases. Sonographers are able to: apply knowledge of anatomy and physiology, as well as pathophysiology to accurately demonstrate anatomical structures on a sonogram or digital medium; apply principles of sonographic physics to assess anatomical structures; recognize sonography's role in the healthcare environment; and provide patient care and comfort. Students are eligible to take the registry certification following acceptance of their application by the American Registry of Diagnostic Medical Sonography (ARDMS). The mission of the Diagnostic Medical Sonography program is to provide didactic and clinical education that enables qualified students to achieve strong communication, critical thinking and technical skills required to obtain entry-level employment and become a Registered Diagnostic Medical Sonographer.

The Diagnostic Medical Sonography Program is accredited by the Commission on Accreditation of Allied Health Educational Programs (CAAHEP), 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; (727) 210-2350. Program accreditation is granted upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS), 6021 University Blvd., Suite 500, Ellicott City, MD 21043-6090; (433) 973-3251.

MEDICAL ASSISTANT

Associate of Applied Science

Medical assisting is a multi-skilled allied health profession in which practitioners work primarily in ambulatory settings such as medical offices and clinics. Medical assistants function as members of the healthcare delivery team and perform administrative duties and clinical procedures. Graduates are encouraged to take the national certifying exam. Passing this exam entitles the candidate to the credential CMA (Certified Medical Assistant), AAMA (American Association of Medical Assistants).

The Medical Assistant programs at the Allen Park, Auburn Hills, Cadillac, Cass City, Clinton Township, Coldwater, Flint, Jackson, Muskegon, Owosso, and Port Huron campuses are accredited by the Commission on Accreditation of Allied Health Education Program (CAAHEP), www.caahep.org; 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; Phone: 727-210-2350, Fax: 727-210-2354; on the recommendation of the Medical Assisting Education Review Board (MAERB), 20 North Wacker Drive, Suite 1575, Chicago, IL, 60606-2930; (312) 899-1500.

MEDICAL INSURANCE SPECIALIST

Associate of Applied Science

This program prepares students to identify the major sources of health insurance and their rules and policies affecting billing and payment. An emphasis will be placed on the student's ability to abstract diagnostic and procedure codes, process claims in outpatient, inpatient, and ambulatory care settings, and the management of account receivables to maximize optimum reimbursement. Graduates are encouraged to take a national certification examination.

Program Status: Open Enrollment.

MEDICAL LABORATORY TECHNICIAN

Associate of Applied Science

The Medical Laboratory Technician is a skilled professional who works in a clinical laboratory setting under the supervision of a qualified physician and/or medical technologist. The technician performs laboratory procedures involving body fluids in the areas of hematology, microbiology, immunohematology, immunology, clinical chemistry, and urinalysis. A laboratory technician operates automated analyzers and monitors quality control programs. Although technicians have limited patient contact, clinical laboratory testing plays a crucial role in the detection, diagnosis, and treatment of disease. Upon completion of this program, students will be eligible to sit for national certification as a Medical Laboratory Technician.

The Medical Laboratory Technician Programs at Allen Park and Owosso campuses are accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 N. River Rd. Suite 720 Rosemont, IL 60018-5119 Phone: (773) 714-8880 x381; Fax: (773) 714-8886.

OPTICIANRY

Associate of Applied Science

An optician is a professional who has the responsibility for the dispensing of eyewear, including spectacles, contact lenses, low-vision aids, and accessories. The optician may fabricate, verify, and fit eyeglasses, contact lenses and other optical devices upon the written prescription of a medical doctor or doctor of optometry. Once presented with this prescription, an optician is responsible for analyzing and interpreting the prescription to determine the lenses that are best suited to the patient's lifestyle and visual needs. Frame selection, including size and material, is then chosen. The optician takes measurements to insure proper lens placement in the frame, and must verify the accuracy of the finished product. The glasses are adjusted to the patient by the optician at the time of delivery. Other duties include occasional adjustments to retain proper fit, replacements, and repairs of lenses and frames. Graduates are eligible to sit for the National Opticianry Competency Exam administered by the American Board of Opticianry and the National Contact Lens Examination. Students may also sit for state licensure exams in states where applicable. At this time the state of Michigan does not require licensure or certification to practice this profession.

The Baker College Opticianry Program is accredited by the Commission on Opticianry Accreditation (COA) and is recognized by the Council on Higher Education Accreditation (CHEA, <http://www.chea.org/>).

Program Status: Open Enrollment.

ORTHOTICS/PROSTHETIC TECHNOLOGY

Associate of Applied Science

This program is designed to provide students with a comprehensive education in the disciplines of Orthotic Technology (fabrication of orthopedic braces) and Prosthetic Technology (fabrication of artificial limbs). Students will learn to interpret orthometry forms, apply biomechanical principles, and fabricate orthotic/prosthetic devices. Upon completion of the program, students are eligible to sit for the national exams to become a Certified Technician Orthotics (CTO), Certified Technician Prosthetics (CTP), or Certified Technician Prosthetics/Orthotics (CTPO).

The program is accredited by the National Commission of Orthotics and Prosthetics Education (NCOPE), 330 John Carlyle Street, Suite 200, Alexandria, VA 22314; Phone: (703) 836-7114, Fax: (703) 836-0838; Web address: <http://www.ncope.org>, e-mail: info@ncope.org. Accreditation will give graduates eligibility to take the national certification examinations for technicians offered by the American Board for Certification.

Program Status: Limited Enrollment.

PHARMACY TECHNICIAN

Associate of Applied Science

Pharmacy Technicians help licensed Pharmacists provide medication and other healthcare products to patients. Technicians usually perform routine tasks to help prepare prescribed medication, such as counting tablets and labeling bottles. They also perform administrative duties involving medical insurance and assist with ordering and maintaining inventory. Technicians refer any questions regarding prescriptions, drug information, or health matters to a pharmacist. Graduates of this program will be prepared for entry-level employment in a wide variety of pharmacies, including retail, hospital, mail-order, nursing homes, and assisted-living facilities. Current information on opportunities for pharmacy technicians can be found at the Bureau of Labor and Statistics website (www.bls.gov/oco). In addition to employment, courses in the program have been developed to prepare individuals to successfully complete the national certification exam administered by the Pharmacy Technician Certification Board.

Program Status: Open Enrollment.

PHYSICAL THERAPIST ASSISTANT

Associate of Applied Science

The Physical Therapist Assistant (PTA) is a technical healthcare worker who performs patient care under the supervision of a licensed physical therapist. Typical settings include hospitals, rehabilitation clinics, private practice, geriatric care facilities, sport medicine centers, school systems, and industrial sites. For information about the licensure examination see <http://www.fsbpt.org/ExamCandidates.aspx>.

Accreditation/Approval/Certification Status

External peer review is the primary means of assuring and improving the quality of higher education institutions and programs in the United States. This recognition is accomplished through program accreditation, approval, or certification.

The Baker College Physical Therapist Assistant Programs at Allen Park, Auburn Hills, Flint, and Muskegon are accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, VA 22314; (703) 706-3245; www.capteonline.org; E-mail: accreditation@apta.org.

POLYSOMNOGRAPHIC TECHNOLOGY

Associate of Applied Science

Polysomnography is a new, rapidly growing, health related field dedicated to the study of sleep disorders. With millions of people being tested in sleep laboratories and few formal training programs nationwide, opportunities for qualified polysomnographers (sleep study technologists) are outstanding. These specialists work in state-of-the-art laboratories where they assess patients and prepare them for sleep studies. They also operate, monitor, and troubleshoot highly sophisticated sleep computers to analyze sleep patterns. With the information they gather, sleep technologists help physicians diagnose and treat sleep disorders. Baker College's Associate of Applied Science Degree program in Polysomnographic Technology offers comprehensive preparation for entry into this important field. Specialized laboratories help students develop the expertise needed to become independent clinicians.

Accreditation/Approval/Certification Status

The Polysomnography Program at the Flint campus is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 25400 US Highway 19 North, Suite 158, Clearwater, FL 33763; (727) 210-2350; fax: (727) 210-2354; Web address: www.caahep.org on the recommendation of the Committee on Accreditation for Polysomnographic Technologist Education (CoAPSG) 1711 Frank Avenue, New Bern, NC 28560; (252) 626-3238; Contact e-mail: office@coapsg.org; Web address: www.coapsg.org.

RADIOLOGIC TECHNOLOGY

Associate of Applied Science

Radiographers are highly skilled professionals qualified to perform diagnostic imaging procedures and examinations prescribed by licensed medical practitioners. Technologists apply knowledge of anatomy and physiology, positioning, and radiographic techniques to provide quality healthcare services. The mission of the Baker College Radiologic Technology program is to enable qualified students to develop into competent and professional entry-level radiographers who are prepared to successfully sit for the ARRT examination and acquire gainful employment. We believe that this is done through exercises in critical thinking, varied clinical experience, the encouragement of universally responsible behavior, and foundations in guiding radiologic principles.

The Radiologic Technology Programs at Clinton Township, Muskegon, and Owosso are accredited by the Joint Review Committee on Education in Radiologic Technology, 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182; Phone: (312) 704-5300, Fax: (312)-704-5304; E-mail: mail@jrcert.org; Web address: www.jrcert.org.

RESPIRATORY CARE

Associate of Applied Science

This program is designed to prepare graduates for a highly professional and dynamic career as competent Respiratory Care Practitioners. Respiratory Therapists, also known as Respiratory Care Practitioners, as members of a team of healthcare professionals work to evaluate, treat, and manage patients of all ages with respiratory illnesses and other cardiopulmonary disorders in a wide variety of clinical settings. Respiratory Care Practitioners must behave in a manner consistent with the standards and ethics of all healthcare professionals. In addition to performing respiratory care procedures, respiratory therapists are involved in clinical decision making—such as patient evaluation, treatment selection, and assessment of treatment efficacy—and patient education. Respiratory Care Practitioners work in hospitals, home care companies, physicians’ offices, extended care facilities, outpatient centers, respiratory care equipment sales, and as educators in hospitals, colleges, and universities. Therapists may choose to specialize in neonatology or pediatrics caring for infants or children, sleep diagnostics, pulmonary function testing, rehabilitation, providing home care services, or they may choose critical and emergent care settings.

Baker College of Auburn Hills Respiratory Care Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Harwood Road Bedford, TX 76021; (817) 283-2835; Web address: www.coarc.com.

SURGICAL TECHNOLOGY

Associate of Applied Science

A surgical technologist possesses expertise in the theory and application of sterile and aseptic technique and combines the knowledge of human anatomy, pathophysiology, surgical procedures, and implementation tools and technologies to facilitate a physician’s performance of surgery. The surgical technologist works under the supervision of a surgeon to ensure that the operating room environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety. Currently, the role of the surgical technologist is expanding to include other areas of surgery such as labor and delivery units, cardiac catheterization labs, outpatient surgery facilities, and for physicians in private practice.

The Surgical Technology program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; Phone: (727) 210-2350; Fax: (727) 210-2354; upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA).

THERAPEUTIC MASSAGE

Associate of Applied Science

Students are prepared to enter the field of massage therapy. The 1,130 contact hour program focuses on therapeutic massage techniques used in a clinical setting. Additionally, students will complete a clinical externship in their last quarter of study. Graduates will be prepared and eligible to take any nationally recognized certification examination including the National Certification Board of Therapeutic Massage and Bodywork (NCBTMB) or Massage and Bodywork Licensing Exam (MBLEx) needed for state licensure.

The Therapeutic Massage Program is accredited by the Commission on Massage Therapy Accreditation (COMTA). COMTA is located at 5335 Wisconsin Avenue NW, Suite 440, Washington, DC 20015; Phone: (202) 895-1518, Fax: (202) 895-1519; info@comta.org or www.comta.org.

Program Status: Open Enrollment.

VASCULAR ULTRASOUND TECHNOLOGY

Associate of Applied Science

This program prepares students by academic and clinical training to provide patient services using diagnostic ultrasound to perform vascular testing under the supervision of a licensed medical doctor. This program will prepare students to perform these skills in a variety of healthcare settings.

The Vascular Ultrasound Technology Program on the Auburn Hills and Owosso campuses is accredited by the Commission on Accreditation of Allied Health Education Programs, (CAAHEP), 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; Phone: (727) 210-2350; Fax: (727) 210-2354; on the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS), 2025 Woodlane Drive St. Paul, MN 55125-2998; (651) 731-1582.

Program Status: Limited Enrollment.

VETERINARY TECHNOLOGY

Associate of Applied Science

A veterinary technician can best be thought of as an animal nurse. By definition, a veterinary technician is a person who has completed a 2 year associate degree in Veterinary Technology from an AVMA (American Veterinary Medical Association) accredited institution. The Veterinary Practice Act of Michigan allows veterinary technicians to do anything for the care of animals except diagnose disease, prescribe medication, and perform surgery. Besides providing nursing care, veterinary technicians also function as laboratory technicians, radiology technicians, pharmacy technicians, surgical technicians, and anesthesia technicians. In addition, veterinary technicians are often responsible for a majority of the client education that occurs in a veterinary practice, thus this is a profession that requires excellent communication skills. The veterinary technology profession is very diverse and the opportunities for technicians are extremely varied. Career opportunities exist within, but are not limited to the following areas: small animal hospitals, large animal hospitals, research, education, pharmaceuticals, and the military. Once a student has successfully graduated from an AVMA accredited program, he/she is able to sit for the state and national licensing exams. If the graduate passes both exams, he/she earns the title of Licensed Veterinary Technician (LVT) in the State of Michigan. Students who graduate will be eligible for licensure by the State of Michigan.

Accreditation is granted through the American Veterinary Medical Association, Committee on Veterinary Technician Education and Activities (AVMA, CVTEA). Cadillac, Clinton Township, Flint, Jackson, and Muskegon are currently accredited.

The Veterinary Technology Program is accredited by the American Veterinary Medical Association, Committee on Veterinary Technician Education and Activities (AVMA, CVTEA), 1931 North Meacham Road, Suite 100, Schaumburg, IL 60173-4630; Phone: (800) 248-2862, Fax: (847) 925-1329; Web address: avma.org.

RADIATION THERAPY

Bachelor of Science

This program is an allied health discipline, which utilizes radiation for the treatment of cancer and cancer related diseases. The radiation therapist plays an integral role in the management team of physicians, physicists, and other allied health personnel. The professional has the unique opportunity to blend knowledge and skills of mathematics, medical science, and psychology in his or her everyday work. The radiation therapist has the opportunity of knowing patients over a period of several months, and becoming an integral part of their healthcare.

The Radiation Therapy Program is accredited through the Joint Review Committee on Education in Radiologic Technology, 20 Wacker Drive, Suite 2850, Chicago, IL 60606-3182; Phone: (312) 704-5300, Fax: (312)-704-5304; Web address: www.jrcert.org.

BAKER COLLEGE SCHOOL of NURSING

Any nurse will tell you it can be a tough and demanding job, but they will also tell you that it's one of the most rewarding careers you can choose. This is because on a daily basis you're helping people who need it the most. As a nurse, you'll be both a caregiver and a problem-solver, someone who helps heal people in mind, body, and spirit. Compassion is critical, but you'll also need a strong aptitude for science and critical thinking to properly treat patients.

PRACTICAL NURSE

Certificate

The Practical Nurse Program at Baker College prepares students to attain the necessary knowledge, attitudes, and skills for a career as a practical nurse. Upon completion of the program, graduates will obtain a certificate in Practical Nursing and be eligible to sit for the PN-NCLEX Exam. The curriculum is designed to assist students to become critical thinkers and problem solvers. Students are encouraged to develop an appreciation for the legal, moral, ethical, and cultural dimensions of issues they confront in an ever-evolving healthcare system. The Michigan Board of Nursing may deny licensure to an applicant who has been convicted of a crime or is addicted to drugs or alcohol.

The Baker College of Jackson Practical Nurse program has received initial approval from the Michigan Board of Nursing. Graduates of this program are eligible to take the NCLEX-PN licensing exam, which is a standard exam developed by the National Council of State Boards of Nursing. The Michigan Board of Nursing may deny LPN licensure to an applicant who has been convicted of a crime or is addicted to drugs or alcohol.

Program Status: Limited Enrollment.

NURSING

Associate Degree in Nursing

The mission of the Nursing Program at Baker College is to prepare graduates who are life-long learners with the core knowledge and skills needed to provide competent, holistic nursing care in a diverse and ever-changing healthcare environment.

The Baker College School of Nursing embraces a commitment to the Art and Science of Human Caring, as described by Dr. Jean Watson, in the preparation of individuals committed to providing safe, compassionate, quality care, while promoting positive health outcomes. This Baker College associate degree program will provide practical instruction and experiential learning in a complex, technologically-advanced, culturally-diverse healthcare environment. This program of study will provide an academic foundation for life-long learning and nursing practice in dynamic, contemporary healthcare systems.

This framework is congruent with the mission and vision of Baker College to provide quality higher education and training that enable graduates to be successful throughout challenging and rewarding careers. Nursing is a career that requires life-long learning in a dynamic healthcare system, and the program of study will provide an academic foundation for further nursing education. The curriculum will foster a learning environment preparing caring nurses committed to professional and personal values and responsibilities.

The nursing programs within the Baker College System have been approved by the Michigan Board of Nursing.

The Allen Park ADN program is currently in the process of seeking ACEN accreditation.

Program Status: Limited Enrollment.

All prerequisites must be taken prior to the core nursing classes.

NURSING (PRE-LICENSURE)

Bachelor of Science

The goal of the Baker College Baccalaureate Pre-licensure Nursing program is to provide students a course of study in professional nursing which combines humanities and sciences with the theory and practice of nursing. Students will acquire knowledge and skills needed to function as professional nurses in healthcare settings that are responsive to individual and community needs. These individuals will develop into leaders of research, practice, education, and administration with the healthcare environment. There is no waiting list for this program, but enrollment is limited.

Program requirements include:

- High School diploma or GED equivalent (from an accredited program).
- Successful completion of all designated prerequisite courses with a minimum of a B- (2.7).
- Kaplan Admission Test
- Students must have a cumulative GPA of a B- (2.7) in order to graduate with a BSN degree from Baker College. A minimum grade of 2.0 (C) is required for general education courses.

The pre-licensure nursing programs within the Baker College System have been approved by the Michigan Board of Nursing.

The Baccalaureate Pre-licensure Nursing program at Baker College is accredited by the Commission on Collegiate Nursing Education (CCNE); One Dupont Circle NW, Suite 530, Washington, DC; (202) 887-6791.

Program Status: Limited Enrollment.

NURSING (POST-LICENSURE)

Bachelor of Science

The goal of the Baker College Baccalaureate Post-licensure Nursing program is to provide an opportunity for licensed registered nurses to continue their professional growth by the acquisition of knowledge and skills needed to function in healthcare settings that are responsive to individual and community needs as professional nurses. These individuals will develop into leaders of research, practice, education, and administration within the healthcare environment.

Program requirements include:

- An unencumbered license as a Registered Nurse (RN) in the United States (US), District of Columbia, or US territories; or an unencumbered license as a RN in Canada. Note: Canadian RNs must complete the clinical components of this program under the supervision of a baccalaureate nurse licensed in Canada. Successful completion of the Baker College baccalaureate nursing program does not qualify the Canadian graduate to take the US NCLEX examination.
- All students are expected to maintain licensure throughout their academic career.
- Applicants must include a photocopy of an active US or Canadian RN license or a printed page from the licensing state's nursing website or Canadian equivalent verifying licensure status and expiration date.
- Students must have a cumulative GPA of a B- (2.7) in order to graduate with a BSN degree from Baker College. A minimum grade of 2.7 (B-) is required for Health Science Courses (SCI, HSC, NUR). A minimum grade of 2.0 (C) is required for general education courses.

The nursing programs within the Baker College System have been approved by the Michigan Board of Nursing.

The Baccalaureate Post-licensure Nursing program at Baker College is accredited by the Commission on Collegiate Nursing Education (CCNE); One Dupont Circle, NW, Suite 530, Washington, DC, (202) 887-6791.

BAKER COLLEGE
SCHOOL of OCCUPATIONAL THERAPY

Occupational therapists work with people who have physical and mental challenges, helping them improve their ability to perform everyday tasks and achieve more independence. They begin by making an assessment of the patient’s current abilities, and then develop and implement a plan of care that helps the patient learn or regain the skills needed to live and work.

OCCUPATIONAL THERAPY ASSISTANT

Associate of Applied Science

The occupational therapy assistant is a skilled healthcare practitioner who works under the supervision of a licensed occupational therapist in the planning and treatment implementation of individuals affected by physical, emotional, and developmental disabilities.

The Occupational Therapy Assistant Programs at Baker College of Allen Park, Baker College of Owosso, and Baker College of Muskegon are fully accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449; (301) 652-2682; Web address: www.acoteonline.org.

Graduates from the accredited programs at Allen Park, Muskegon, and Owosso are eligible to take the national certification examination.

Program Status: Limited Enrollment.

QUARTER HOURS REQUIRED FOR GRADUATION 113

PRE-OCCUPATIONAL THERAPY

Bachelor of Science

This program is concerned with providing a practical education that will enable graduates to apply their skills to a diverse population in a variety of settings. The curriculum will provide students with early exposure to the occupational therapy profession and to those conceptual models that are applied by occupational therapists on a daily basis.

The combined Pre-Occupational Therapy program and the Master of Occupational Therapy program are currently recognized as fully accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) and can be reached by mail at: c/o Accreditation Department, American Occupational Therapy Association (AOTA), 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449; (301) 652-AOTA; www.acoteonline.org. Students must have successfully completed all Level I and Level II, clinical experiences, and have graduated from an accredited occupational therapy program to be eligible to sit for the national Occupational Therapist Registered Examination. States have licensure laws that occupational therapists must comply with to practice in that state. The accreditation Council for Occupational Therapy Education (ACOTE) and the American Occupational Therapy Association have mandated that all entry-level occupational therapists be prepared at the master degree level beginning January 2007. Therefore, all pre-occupational therapy students will be required to apply to the Baker Center for Graduate Studies upon completion of the Pre-Occupational Therapy program. The Baker College Bachelor of Health Science and Master of Occupational Therapy programs are combined as a 4+2 degree program; students complete four years of undergraduate study and two years of graduate study. Graduate admission is open only to students who have completed the Pre-Occupational Therapy program at Baker College of Flint. A criminal conviction may prevent eligibility to sit for the national certification examination, qualification for state licensure, specific employment opportunities, and placement at Level I and Level II clinical sites. Students are encouraged to contact state licensure agencies and the National Board for Certification in Occupational Therapy (NBCOT) at (301) 990-7979 or www.nbcot.org prior to applying to the program.

Program Status: Limited Enrollment.

In the constantly changing and growing world of computers and digital technology, the computer-related career sector continues to offer a nearly unbeatable combination of employment growth, high salaries, career advancement, and job satisfaction. From the creative to the technical, many of the fastest-growing occupations require only an associate degree. For those with the right aptitude, skill, and training, demand is expected to be particularly strong in software development, database/systems administration, security, systems analysis, and support.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an "Undeclared but Degree Seeking" program. A student also may add a limited number of "Student Elected Classes" to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

COMPUTER PROGRAMMING

Associate of Applied Science Degree

Students with skills in computer science are in high demand to design and develop business information systems. Students in this program acquire skills in programming, systems analysis, and design. Instruction in multiple programming languages provides students with diverse, flexible, and employable skill sets in a variety of businesses and industries in positions such as programmers, developers, and systems analysts.

INFORMATION TECHNOLOGY

Associate of Applied Science Degree

Information Technology professionals install, configure, secure, and support an organization’s computing systems including: PCs and other devices, Wide Area Networks (WANs), Local Area Networks (LANs), and Internet systems. They also monitor business and company networks and perform necessary repairs and maintenance to support network availability for all system users. The Baker College Information Technology Associate Degree program provides a solid foundation for students to pursue this growing occupation while allowing the flexibility to choose an area of concentration. Foundational courses align with industry certifications including:

CompTIA A+, Network+, and Security+.

CYBER DEFENSE

Bachelor of Science

This program prepares graduates for career opportunities in information technology and security with a concentration in cyber defense. Protection of multiple platform hardware, software, networking, and operating systems is considered an integral part of any business' information technology topology. Information technology specialists work in healthcare, business, information systems, technical, and engineering fields. Cyber defense technologists' possess the necessary skills to identify, correct, and defend against internal and external threats as well as other problematic issues relative to an organizations computing and networking infrastructure on a multiple platform topology.

DIGITAL MEDIA DESIGN

Bachelor of Science

This program is designed for students who want to combine graphic communication proficiency with a special focus on digital video production. Technical courses emphasize the creative development of concepts and ideas using a variety of graphic art and Web design media. Students also complete a sequence of digital video production courses that range from storyboarding through the final phases of filming, editing, and DVD development. Skills developed in related areas such as marketing, advertising, sales, and public relations are essential to success in today's fast-paced and highly competitive graphic design and digital media businesses.

GAME SOFTWARE DEVELOPMENT

Bachelor of Science

This program is designed to immerse students in the core knowledge of software engineering emphasizing animation and gaming development. This program will focus on leading programming technologies and will prepare students for entry level positions in the computer gaming industry. A comprehensive approach will carry students from modeling, through animation and game programming, to the senior design project.

INFORMATION SYSTEMS

Bachelor of Science

Information Systems (IS) professionals serve as strategic liaisons between administrative and technological functions of an organization. IS professionals integrate business processes and complex information technology while serving as consultants, designers, or implementers of new solutions that assist an organization in achieving goals. Related occupations include Information Systems Manager, Chief Information Officer, Project Manager, Computer Systems Analyst, and Systems Administrator.

INFORMATION TECHNOLOGY AND SECURITY

Bachelor of Science

This program prepares graduates for career opportunities in information technology and security technology as network administrators, system analysts, or similar positions. Employees with information technology and security knowledge are considered an integral part of many business' information technology teams. Information technology professionals work in healthcare, business, information systems, technical, and engineering fields. They possess the skills to manage information technology teams as well as handle the technical aspects of the network infrastructure.

For more information or to see program videos, please visit baker.edu.

The area of Social Science covers a wide variety of professions that have one thing in common: they are all devoted to helping people. Whether it’s criminal justice, interpreter training, or human services, you will provide those in need with essential services—while making positive contributions to their lives, as well as your own. Career satisfaction in some Social Science fields ranks among the highest of all professions.

Many of the courses and programs at Baker College are offered in an online delivery format. See page 137 for Baker College Online programs. Contact your campus Academic/Administrative Office for details about Online courses.

A new student may choose an “Undeclared but Degree Seeking” program. A student also may add a limited number of “Student Elected Classes” to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus Social Science staff to discuss requirements.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

The Human Services Associate and Bachelor Degree programs are accredited by the Council for Standards in Human Service Education (CSHSE). 3337 Duke Street, Alexandria, VA 22314; phone: 571-257-3959; e-mail: info@cshse.org; Web address: www.cshse.org.

CERTIFICATE PROGRAM

CORRECTIONAL STUDIES

Certificate

This program prepares students for meeting the Michigan Department of Corrections (MDOC) requirements needed for positions in correctional facilities in the state, local, and private sectors. Students could complete 24 credits in a minimum of two quarters. Students successfully completing this certificate will have completed the requirements for initial employment by the MDOC.

ASSOCIATE DEGREE PROGRAMS

CRIMINAL JUSTICE

Associate of Applied Science Degree

This program prepares graduates with the skills, tools, and methods needed to work in the criminal justice profession. The program explores the philosophical underpinnings of crime and justice. Graduates will understand the interrelatedness of police, corrections, and the courts. Concepts of justice, duty, and societal issues will be examined along with various ethical issues related to criminal justice topics. Graduates will model ethical behavior and a commitment to service with the skills necessary to respond to complex and dynamic situations appropriately. Interpersonal communication and writing skills germane to the criminal justice profession are practiced throughout the program.

HUMAN SERVICES

Associate of Applied Science Degree

This program prepares students in the areas of psychology, stress management, conflict management, and social problems to work in entry-level positions in a variety of human services settings. Graduates will work closely with social workers, counselors, and psychologists, focusing on the special needs of children, adolescents, families, developmentally disabled individuals, and the elderly. This program combines general education with training for competency in the field of human services in order for graduates to be prepared in their chosen fields of study and to continually enhance their own personal and professional growth.

The Human Services Associate and Bachelor Degree programs are accredited by the Council for Standards in Human Service Education (CSHSE). 3337 Duke Street, Alexandria, VA 22314; phone: 571-257-3959; e-mail: info@cshse.org; Web address: www.cshse.org.

LAW ENFORCEMENT ACADEMY (POLICE)

Associate of Applied Science Degree

This program prepares graduates with the skills, tools, and methods needed in the law enforcement profession. Students successfully completing the program will receive an Associate of Applied Science in Criminal Justice and certification as a police officer in the State of Michigan pursuant to the Michigan Commission on Law Enforcement Standards (MCOLES). A student will take most of his/her academic courses during the first year or two before applying for the Law Enforcement Academy. Students must complete a medical, vision, and hearing screening; pass the MCOLES Reading and Writing Test; pass the MCOLES Fitness Test; complete the application materials; and successfully complete the admission process to be admitted into the Academy. Students will receive 24-quarter credits upon successful completion of the Academy. Students must be admitted into the Academy to remain in this program.

BACHELOR DEGREE PROGRAMS

CRIMINAL JUSTICE

Bachelor of Science

This program prepares graduates with the skills, tools, and methods needed to work in the criminal justice profession. The program explores the philosophical underpinnings of crime and justice. Graduates will understand the interrelatedness of police, corrections, and the courts. Concepts of justice, duty, and societal issues will be examined along with various ethical issues related to criminal justice topics. Graduates will model ethical behavior and a commitment to service with the skills necessary to respond to complex and dynamic situations appropriately. Interpersonal communication and writing skills germane to the criminal justice profession are practiced throughout the program.

INTERPRETER TRAINING

Bachelor of Science

This program prepares graduates for employment as Sign Language Interpreters, who facilitate communication between deaf and hard of hearing individuals, and the hearing population. Graduates will be able to communicate effectively in American Sign Language (ASL) and other forms of sign communication. Completion of the bachelor program will provide graduates with advanced skills leading to higher levels of state and national credentials.

Baker College Online is a recognized leader in career-based online learning, distinguished for its quality, value, and commitment to excellence in online instruction, student services, and ultimately your success. Our online undergraduate programs are purposefully designed to meet the needs of people whose lives and schedules aren't suited to the traditional on-campus college experience. Programs available 100% online, with flexible scheduling, allow you to conveniently fit your studies into even the busiest schedule.

College Success Online (COL 112) is required for all first-time college students enrolled in a certificate or degree program online. This course informs students of campus services; college technology; policies and procedures; as well as addresses learning and study strategies.

A new student may choose an "Undeclared but Degree Seeking" program. A student also may add a limited number of "Student Elected Classes" to his/her program with the approval of an Academic Advisor. Information about both of these options, including course and credit hour limitations, can be obtained in the Academic Office.

Information regarding double majors and/or minors is located on page 223. Contact your campus academic staff to discuss requirements.

Students may be required to pass a health screening and a criminal background check prior to particular courses, admittance into programs, or for their clinical externship.

Disclosure information regarding gainful employment for certificate programs can be found at www.baker.edu/gainfulemployment.

Baker College is one of the most successful providers of online education in the United States. Baker Online offers certificates as well as multiple associate and bachelor degree programs via the Internet. Students can supplement their campus-based program with online courses or complete their entire degree online.

International Assembly for Collegiate Business Education • IACBE.org

Baker College has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE) located at 11374 Strang Line Road in Lenexa, Kansas. Web Address: www.iacbe.org. The business programs designated with an asterisk (*) are accredited by the IACBE.

TECHNICAL REQUIREMENTS

Online students must have the following hardware and software:

Additional equipment and software may be required for some courses.

PC REQUIREMENTS

- Intel Core i3 Processor or higher
- Windows 7 or higher
(Higher version may be required in some classes)
- 4 GB of RAM required
- 80 GB hard drive
- Microsoft Office 2010
(Higher version may be required in some classes)
- IE 9 and/or a recent/updated release of Firefox or Chrome
- Java 7
- Virus protection software
- Webcam recommended and may be required in some courses

MAC REQUIREMENTS

- OS X 10.7.3 or later
- 4 GB of RAM
- 80 GB hard drive
- Microsoft Office - Mac 2011
(Higher version may be required in some classes)
- Safari 6.1.5 and/or a recent/updated release of Firefox or Chrome
- Java 7
- Virus protection software
- Webcam recommended and may be required in some courses

Online courses at Baker College are delivered utilizing a secure learning management system. Students are required to comply with the Institution's policy regarding: (1) the "Policy on the Proper Use of Information Resources, Information Technology, and Networks at Baker College" and (2) "Information Systems Division: Conditions of use Policy." Those abusing their privileges or violating these policies may be removed from the system and denied further access.

REASONS TO CHOOSE BAKER ONLINE

12

**ONLINE LEARNING
CONSORTIUM™
QUALITY SCORECARD**

MILITARY FRIENDLY SCHOOL

Baker College strongly believes in the Principles of Excellence as outlined in Executive Order 13607 in serving all military connected students by being an active participant of GoArmyEd and CCAF's AU-ABC Program. The college is a proud signer of the DOD MOU and is eligible to receive Federal military and Veteran education benefits.

ACCREDITED

Baker College Online is accredited by the Higher Learning Commission, which assures you that credits earned are recognized and meet high standards of educational quality.

RATED A "BEST BUY"

GetEducated.com ranks Baker Online® as one of their 30 "Best Buys" nationwide.

FOUNDED IN 1911

Baker College was one of the first colleges to offer online classes.

ONLINE ORIENTATION COURSE

This course teaches students the online environment before they begin their actual classes.

PROVEN ONLINE CURRICULUM

Curriculum is based on identified learning outcomes that align with employer needs.

AFFORDABLE

Tuition is affordable because we are a not-for-profit institution focused on serving students, not shareholders. The Jewel Education Fund invests in our students via scholarships, grants, etc.

OVER 40 CAREER PROGRAMS

Associate, bachelor, master, and doctoral degree programs are available 100% online with no on-campus classes required.

CONVENIENT CLASSES

Baker's online programs are available 24/7/365 from virtually anywhere in the world.

LARGEST INDEPENDENT COLLEGE IN MICHIGAN

Baker College has nearly 25,000 students. Over 12,000 students attend online worldwide.

PERSONAL GUIDANCE

Online students have a personal academic advisor to answer questions, provide guidance, and help them succeed.

LIFETIME EMPLOYMENT ASSISTANCE

All Baker Online graduates receive Lifetime Employment Assistance—free and forever—to help them establish and sustain successful careers.

REAL-WORLD PROGRAMS

Baker programs are designed to meet the needs of today's job market, giving our graduates an employment advantage.

ASSOCIATE DEGREE PROGRAMS

ACCOUNTING

Associate of Business Degree

Accounting is a vital function for any business, regardless of size or complexity. This program prepares students for entry-level positions in the accounting field as well as for advanced study in the discipline. Students completing this degree will develop the skills necessary to record, present, and analyze financial data and evaluate the operational performance of a variety of entities.

INFORMATION TECHNOLOGY

Associate of Applied Science Degree

Information Technology professionals install, configure, secure, and support an organization's computing systems including: PCs and other devices, Wide Area Networks (WANs), Local Area Networks (LANs), and Internet systems. They also monitor business and company networks and perform necessary repairs and maintenance to support network availability for all system users. The Baker College Information Technology Associate Degree program provides a solid foundation for students to pursue this growing occupation while allowing the flexibility to choose an area of concentration. Foundational courses align with industry certifications including: CompTIA A+, Network+, and Security+.

IT SUPPORT SPECIALIST MAJOR

This major focuses on the segment of the IT market that provides service and support for software applications configuration, training of users, maintenance of information, and communication processes between a company's back-end network administrators and middle to front-line employees and customers.

BACHELOR DEGREE PROGRAMS

ACCOUNTING

Bachelor of Business Administration

This program emphasizes practical application as well as the theoretical aspects of the discipline of accounting to prepare students for professional careers in public, managerial, and governmental accounting and/or advanced study within the discipline. Students will gain an understanding of the social, ethical, economic, legal, and regulatory environment in which businesses operate and develop the problem-solving, decision-making, communication, and leadership skills necessary to compete in a dynamic global marketplace. Students completing this degree are eligible to sit for the Uniform Certified Public Accountant Examination in Michigan (see note below).

Beginning July 1, 2003, students pursuing a CPA licensure in the state of Michigan will be required to have obtained 225 quarter hours of credit prior to applying for a CPA license. While the BBA Accounting Program satisfies the requirements to sit for the Uniform Certified Public Accountant Examination, additional credit is needed for licensure. Individuals are therefore advised to contact the Michigan State Board of Accountancy Licensing Bureau for further information. Students wishing to become eligible to sit for the examination in other states are recommended to check with the National Association of State Boards of Accountancy (www.nasba.org), which services as a forum for the 54 U.S. boards of accountancy, for the state in which they intend to practice.

BUSINESS ADMINISTRATION ACCELERATED PROGRAM

Bachelor of Business Administration - Accelerated

Turn previous college credits and work experience into a bachelor degree—in just one to two years. Whether you've earned an associate degree or an assortment of college credits, Baker College can consolidate your transcripts—and turn work experience into credits—toward a Bachelor Degree in Business Administration.

This program is designed for the transfer student, military servicemember, or working professional and combines core coursework with experiential credit to provide a contemporary business degree for today's business environment. Elective credit requirement may be satisfied through portfolio, transfer credit, or additional coursework.

This program is designed to help you earn a bachelor degree as quickly and conveniently as possible. Transfer in up to 132 hours of credit in any combination of General Education, Electives, and Core Competencies. Classes are available at all twelve of our Michigan locations and can be completed on-campus, online, or a combination of both.

CRIMINAL JUSTICE

Bachelor of Science

This program prepares graduates with the skills, tools, and methods needed to work in the criminal justice profession. The program explores the philosophical underpinnings of crime and justice. Graduates will understand the interrelatedness of police, corrections, and the courts. Concepts of justice, duty, and societal issues will be examined along with various ethical issues related to criminal justice topics. Graduates will model ethical behavior and a commitment to service with the skills necessary to respond to complex and dynamic situations appropriately. Interpersonal communication and writing skills germane to the criminal justice profession are practiced throughout the program.

FINANCE

Bachelor of Business Administration

This program emphasizes finance as the study of resource allocation, which includes financial markets, instruments, individuals, and institutions that manage money and assets. Students will gain an understanding of financial theory and practice from various perspectives including banking, financial services, financial planning, and corporate finance. Students will gain an understanding of the social, ethical, economic, legal, and regulatory environment in which businesses operate and develop the problem-solving, decision-making, communication, and leadership skills necessary to compete in a dynamic global marketplace. Graduates from this program can enter the fields of corporate finance, investment banking, financial markets and services, and insurance.

GAME SOFTWARE DEVELOPMENT

Bachelor of Science

This program is designed to immerse students in the core knowledge of software engineering emphasizing animation and gaming development. This program will focus on leading programming technologies and will prepare students for entry-level positions in the gaming industry. A comprehensive approach will carry students from modeling through animation and game programming, to the senior design project.

HUMAN RESOURCE MANAGEMENT

Bachelor of Business Administration

This program offers an opportunity for students to acquire a career-focused Human Resource Management undergraduate degree with an integrative approach to understanding various human resource management functions. This program provides an intensive strategic understanding of workforce planning and development, compensation and benefits; global human resource management; and employee health and safety. Students interested in completing the 5 Year MBA Program must apply to the Center of Graduate Studies for acceptance into the program. Students considering this program should contact their academic advisor to review program requirements and acceptance criteria. A minimum 3.5 GPA is required.

INFORMATION SYSTEMS

Bachelor of Science

Information Systems (IS) professionals serve as strategic liaisons between administrative and technological functions within an organization. IS professionals integrate business processes and complex information technology while serving as consultants, designers, or implementers of new solutions that assist an organization in achieving goals. Related occupations include Information Systems Manager, Chief Information Officer, Project Manager, Computer Systems Analyst, and Systems Administrator.

INFORMATION TECHNOLOGY AND SECURITY

Bachelor of Science

This program prepares graduates for career opportunities in Information Technology and Security Technology as network administrators, system analysts, or management of an information technology team. Employees with information technology and security knowledge are considered an integral part of many business' information technology teams. Information technology workers work in healthcare, business, information systems, technical, and engineering fields. They possess the skills to manage information technology teams as well as handle the technical aspects of the network infrastructure.

MANAGEMENT

Bachelor of Business Administration

The major objectives of the management program are to train broadly competent administrators for service in a wide variety of organizations—public or private, product- or service-oriented, for-profit or not-for-profit. To accomplish this basic objective, this program offers students the opportunity to acquire knowledge about the management of human and physical resources and to acquire skills useful in the management of any organization. This program emphasizes the importance of effective oral and written communication, teamwork, decision making, entrepreneurial management, and diversity in the business environment. In addition, this program introduces students to the application and strategic use of the acquired knowledge and skills in areas such as personnel management, organizational behavior, production management, international business, and small business. Students interested in completing the 5 Year MBA Program must apply to the Center of Graduate Studies for acceptance into the program. Students considering this program should contact their academic advisor to review program requirements and acceptance criteria. A minimum 3.5 GPA is required.

MARKETING

Bachelor of Business Administration

Marketers are involved in the process that moves products from concept to consumers by creating, communicating, delivering, and exchanging offerings that provide value. The study of marketing encompasses a wide range of activities including: advertising, sales, retailing, wholesaling, warehousing, packaging, distribution, research, strategic planning, product development, sales management, and marketing communications. Students in this program will participate in active learning and demonstrate an understanding of basic business and marketing principles utilizing case studies and business simulations. Computer technology will be used to prepare spreadsheets, write reports, analyze business problems, and prepare professional presentations. Individual and team activities in class and in business situations will enhance the students' ability to demonstrate ethical values, look at things from a global perspective and develop human relations skills. This degree offers a solid background in the concepts of marketing and business. A marketing degree can lead to a career in areas such as marketing management, marketing research, personal selling, sales management, retail merchandising and management, and promotional strategy and management.

MOBILE APPLICATION SOFTWARE ENGINEERING

Bachelor of Science

Computer software engineers design and develop software by applying the theories and principles of computer science and mathematical analysis to create, test, and evaluate the software applications and systems that make computers work. In this program, students will acquire skills in software application development focusing on solutions for mobile devices across multiple platforms including Android, iOS (Apple) and Windows.

NURSING (POST-LICENSURE)

Bachelor of Science

The goal of the Baker College Baccalaureate Post-licensure Nursing program is to provide an opportunity for licensed registered nurses to continue their professional growth by the acquisition of knowledge and skills needed to function in healthcare settings that are responsive to individual and community needs as professional nurses. These individuals will develop into leaders of research, practice, education, and administration within the healthcare environment.

Program requirements include:

- An unencumbered license as a Registered Nurse (RN) in the United States (US), District of Columbia, or US territories; or an unencumbered license as a RN in Canada. Note: Canadian RNs must complete the clinical components of this program under the supervision of a baccalaureate nurse licensed in Canada. Successful completion of the Baker College baccalaureate nursing program does not qualify the Canadian graduate to take the US NCLEX examination.
- All students are expected to maintain licensure throughout their academic career.
- Applicants must include a photocopy of an active US or Canadian RN license or a printed page from the licensing state's nursing website or Canadian equivalent verifying licensure status and expiration date.
- Students must have a cumulative GPA of a B- (2.7) in order to graduate with a BSN degree from Baker College. A minimum grade of 2.7 (B-) is required for Health Science Courses (SCI, HSC, NUR). A minimum grade of 2.0 (C) is required for general education courses.

The pre-licensure nursing programs within the Baker College System have been approved by the Michigan Board of Nursing.

The Baccalaureate Post-licensure Nursing program at Baker College is accredited by the Commission on Collegiate Nursing Education (CCNE); One Dupont Circle, NW, Suite 530, Washington, DC, (202) 887-6791.

Program Status: Post-Licensure Bachelor of Science Nursing - Open Enrollment

PROJECT MANAGEMENT AND PLANNING

Bachelor of Science

Information Systems (IS) professionals serve as strategic liaisons between administrative and technological functions within an organization. IS professionals integrate business processes and complex information technology while serving as consultants, designers, or implementers of new solutions that assist an organization in achieving goals. Related occupations include Information Systems Manager, Chief Information Officer, Project Manager, Computer Systems Analyst, and Systems Administrator. This major prepares an individual for immediate application of the knowledge, skills, tools, and techniques that are utilized in the practice of project management. The philosophy as well as the set of methods learned in this program will enable graduates to lead projects, complete them on time and within budget. This program will help prepare students for certification as a project manager.

PSYCHOLOGY

Bachelor of Science

Psychology is the study of mental processes and behavior. As such, a scholarly background in psychology is useful and versatile for students to have both personally and professionally. The Psychology program will help to prepare students for a variety of professions and careers or to enter graduate study in psychology, as well as in other related disciplines and fields. The American Psychological Association's Board of Educational Affairs Task Force established specific guidelines for undergraduate psychology major competencies (APA Guidelines for the Undergraduate Psychology Major: Version 2.0, August 2013). The undergraduate psychology major at Baker College Online adapts from, and conforms to, these guidelines and standards. The program seeks to assist students with the development of foundational skills, information, and knowledge in the discipline of psychology. The student then transfers the information learned into actual knowledge which leads to the transformation of knowledge into understanding and application. The Bachelor of Science in Psychology at Baker College Online is a 100% online program and is not available through a Baker College campus. Students in this program will receive all support services through the Baker Online campus.

SUPPLY CHAIN MANAGEMENT

Bachelor of Business Administration

This program provides the skills and knowledge required to be successful throughout a challenging and rewarding career within a supply chain management occupation. Graduates will have opportunities that utilize a multitude of talents and skills, providing an invigorating and exciting career that never grows stagnant. Potential occupations include demand planner, project manager, vendor managed inventory analyst, logistics analyst, warehouse management, production planner, and transportation specialist. According to the Council of Supply Chain Management Professionals, the supply chain management industry is one of the fastest growing industries within the United States and the world with logistics alone accounting for 9.5% of the U.S. Gross Domestic Product. Students finishing this program will have completed a well-rounded curriculum including business and general education cores, as well as the major core that examines all aspects of the industry from raw materials to end users and everything in between. Global perspectives combined with cultural diversity are interwoven within the curriculum creating an awareness of today's business environment that the students will ultimately compete within.

WEB DEVELOPMENT

Bachelor of Science

This program is designed to work in conjunction with the Associate of Applied Science degree in Web Design to provide individuals with additional technical skills in the Web development field. While the associate degree gives students a general base of skills, this degree targets the programming and development skills required to develop interactive, database driven websites.

BAKER *Center for Graduate Studies*

The online, and campus based, graduate programs developed by the Baker Center for Graduate Studies share two common characteristics: They are designed to provide you with the knowledge, skills, and career tools you'll need to succeed in today's professional environment, and their flexible structure accommodates the schedules and responsibilities of busy, working adults.

GRADUATE PROGRAMS

MASTER DEGREES

Master of Business Administration (MBA)

* Accounting.....	PG. 170
* Business Intelligence.....	PG. 170
* Finance.....	PG. 172
* General Business.....	PG. 172
* Healthcare Management.....	PG. 172
* Human Resource Management.....	PG. 173
* Information Systems.....	PG. 173
* Leadership Studies.....	PG. 174
* Marketing.....	PG. 174

Master of Occupational Therapy (MOT).....	PG. 175

--	----------------

Master of Science in Information Systems (MSIS)

Business Intelligence.....	PG. 170
Information Systems.....	PG. 174

Master of Science in Nursing.....	PG. 175
--	----------------

Doctoral Degree

Doctorate of Business Administration (DBA).....	PG. 176
--	----------------

International Assembly for Collegiate Business Education • IACBE.org
 Baker College has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE) located at 11374 Strang Line Road in Lenexa, Kansas. Web Address: www.iacbe.org. The business programs designated with an asterisk (*) are accredited by the IACBE.

WHY BAKER CENTER FOR GRADUATE STUDIES?

PURPOSE

The Center for Graduate Studies offers graduate programs providing advanced preparation in the fields of Business, Education, Information Systems, Nursing, Occupational Therapy, and Psychology. These graduate programs are designed to build upon a well-balanced undergraduate education. Students are expected to develop a thorough understanding of their chosen academic discipline. Graduate education provides students with the opportunity to increase knowledge, broaden understanding, and develop specialized skills beyond the baccalaureate degree.

ADMINISTRATIVE LEADERSHIP

The Center for Graduate Studies' Administrative Offices are located on the Flint campus. These administrative offices are the headquarters for the graduate programs offered throughout Michigan and online. Leadership and administration of graduate programs are provided by the President for the Center for Graduate Studies and the Graduate Faculty Council.

GRADUATE FACULTY COUNCIL

The Graduate Faculty Council, comprised of graduate faculty, is the primary channel of communication between the graduate faculty and the President. The Faculty Council is responsible for establishing the academic policies and standards regarding graduate programs, assessment of graduate programs, and other academic issues relating to graduate education. Additionally, the Faculty Council is the main forum for discussion of research and scholarly activity for graduate-level students and faculty.

ACADEMIC OUTCOMES ASSESSMENT

Graduate students may be required to take standardized entrance, progress, or exit examinations. Students progressing through the program will be assessed by a variety of methods as established by course instructors and the Center for Graduate Studies. The College agrees not to violate student privacy as it uses this information to improve the program for future students and to evaluate the effectiveness of delivery.

ACCREDITATIONS

The graduate programs are accredited through The Higher Learning Commission of the North Central Association of Colleges and Schools. The MBA program also has international accreditation through the International Assembly for Collegiate Business Education (IACBE). The Occupational Therapy program has additional accreditation through The Accreditation Council for Occupational Therapy Education (ACOTE).

RECOGNIZED ACCREDITATION STATEMENT

Applicants to the Baker College Center for Graduate Studies must hold an undergraduate degree from a regionally accredited educational institution as recognized by the American Council on Education in order to be eligible for admission. Applicants with an undergraduate degree from an educational institution nationally accredited by Transnational Association of Christian Colleges and Schools may be admitted to the College on conditional status if all other graduate requirements for admission are fulfilled.

ACCEPTANCE OF TRANSFER CREDIT

The Center for Graduate Studies welcomes transfer students into our graduate programs. Because Baker College recognizes the expediency of understandable and universally accepted standards related to transfer of academic credit, the following policies are established for transfer credit:

- Baker College will accept no more than 16 quarter hours (12 semester hours) of transfer credit into graduate programs.
- Only classes with a B (3.00) grade or higher will be eligible for transfer consideration.
- To transfer successfully, classes must equate to and be compatible with courses offered by the Center for Graduate Studies.
- Transfer of college credit will not be considered if the work was completed more than five years preceding matriculation.
- To obtain transfer credit, students are required to request that all previous colleges attended forward transcripts to Baker College Center for Graduate Studies.
- Students wishing to receive transfer credit from a foreign/international college or university must submit an official evaluation from a U.S. evaluation company. The evaluation must include the grade and U.S. course equivalency to be considered for transfer credit.

INTERNATIONAL APPLICANTS

International applicants must possess competence in the English language; both written and oral. English competency is determined by one of the following:

- A score of 570 or higher on the paper version of the Test of English as a Foreign Language (TOEFL).
- A score of 235 or higher on the Internet version of the TOEFL.
- A median score on the Comprehensive English Language Test (CELT).
- DBA students must have a score of 575 or higher on the paper version TOEFL.

Applicants who completed their undergraduate degree at an institution outside of the U.S. must have their transcript/degree evaluated by a company in the United States, such as Educational Credential Evaluators, Inc. or the National Association of Credential Evaluation Services (NACES). The results of the evaluation must be sent from the evaluation company directly to the Center for Graduate Studies. Official evaluations must include U.S. degree equivalency, course grades, and overall GPA. Applicants wishing to study in the U.S. must fulfill student visa requirements and make an advanced tuition deposit (see Tuition Deposit - International Students).

GRADUATION REQUIREMENTS

Students who have successfully fulfilled the following requirements are eligible to graduate from their program of study:

- Completion of all courses required by the program of study with a grade of C or better, or a B or better in the DBA program.
- Completion of a minimum of 34 quarter hours at Baker College Center for Graduate Studies.
- Achievement of a cumulative GPA of 3.00 or better.
- Submission of an "Application for Graduation Form" one quarter prior to expected graduation.
- Completion of all program requirements within seven years.

ABOUT GRADUATE PROGRAMS

MASTER OF BUSINESS ADMINISTRATION

The MBA program at Baker College combines the best of conventional academic training with the best of field-based learning. The typical business disciplines are represented in the curriculum to ensure that graduates have the necessary business background to be conversant with various aspects of running organizations and companies. Graduates will possess the ability to implement theory into practice, conduct and interpret research, and will be both capable and confident to significantly contribute to long-term corporate success.

MBA ADMISSION INFORMATION

Admission to the MBA program as a degree candidate is classified as either full or conditional status. Conditional status is an enrollment status applicable to students who may be deficient in one of the requirements or standards for matriculation such as undergraduate GPA or another credential required by the program. For applicants admitted on conditional status, the Center for Graduate Studies will specify the conditions for admissions. If the conditions are not met, the student will be dismissed from the program. Application forms and detailed directions are available in the Center for Graduate Studies' Administrative Offices and on the Internet at www.baker.edu. Students are admitted on a rolling admission basis and acceptance decisions are determined by the Admission Committee. Candidates applying for matriculation into the MBA program must submit the following materials:

- Completed Graduate College Application form.
- Non-refundable \$25.00 application fee.
- A typed essay (750-1000 words) in response to the following questions:
 - 1) How have your academic work, professional work, and/or life experiences prepared you for the Baker College Center for Graduate Studies program you seek to enter?
 - 2) What are your personal, professional, and/or career goals 5 and 10 years after you earn your Baker College Center for Graduate Studies degree? How will earning this degree help you achieve these goals?
 - 3) What do you view as your greatest strengths and challenges as you begin the graduate journey? How will you utilize your strengths to overcome your challenges in order to successfully complete the graduate program?
- Official college transcripts indicating an undergraduate degree with a GPA of 2.5 or better (4.0 scale) from a regionally accredited college or university. Official college transcripts must be mailed from the institution granting the degree directly to the Center for Graduate Studies.
- A current resume indicating a minimum of three years of full-time, professional work experience.
- GMAT or GRE scores may be submitted if the candidate wants the scores considered in the admission decision.

MASTER OF OCCUPATIONAL THERAPY

The delivery of the Occupational Therapy Program at the graduate level revolves around instructors facilitating learning through problem-based case management. Students in the MOT program will be required to utilize theory, logic, clinical reasoning, and pragmatic skills in an interactive learning environment. It is expected that students will participate in discussion, debate, and develop treatment choices based on sound research and theoretical assumptions. Students will demonstrate clinical skills as well as the ability to provide a rationale for treatment and expected outcomes. Students will not only display advanced clinical skills in laboratory settings, but they will also reflect advanced knowledge through scholarly writing by completing a research project under the supervision of a faculty member. The MOT curriculum emphasizes mastery of skills required for entry-level practice. The curriculum is designed so that graduates can review, understand, conduct, and interpret research activities. Evidence-based practice initiatives make it essential that practitioner research skills are well developed. This program is specifically designed as a continuation of the Bachelor of Health Sciences Pre-Occupational Therapy Program (in the Health Sciences program pages). Transfer students may be considered for admission after analysis of undergraduate prerequisite courses. The six month fieldwork requirement must be met no later than one year after all academic coursework is completed. Graduates of an accredited program will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy [NBCOT.] After successful completion of this exam, the individual will be a certified occupational therapist. In addition, the State of Michigan licensure for occupational therapists requires NBCOT certification. A felony conviction may affect a graduate's placement at Level I and Level II clinical sites, ability to sit for the NBCOT certification examination, and attain a Michigan license.

ACOTE ACCREDITATION

The MOT curriculum meets the current standards mandated by the Accreditation Council for Occupational Therapy Education (ACOTE). The MOT program is fully accredited by ACOTE, a division of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, Bethesda, MD 20814-3449; 301-652-2682; www.acoteonline.org.

MOT ADMISSION INFORMATION

Admission to a graduate degree program as a degree candidate is classified as either full or conditional status. Conditional status is an enrollment status applicable to students who may be deficient in one of the requirements or standards for matriculation such as: pending completion of their bachelor degree, letter of recommendation, or another credential required by the program. For applicants admitted on conditional status, the Center for Graduate Studies will specify the conditions for admissions. If the conditions are not met, the student will be dismissed from the program. Graduate school application forms and detailed directions are available from the administrative offices. Applications and required credentials must be received prior to the deadline to be considered for matriculation. Acceptance decisions are determined by the Admission Committee. Students applying for matriculation into the MOT program must submit the following materials:

- Completed Graduate College Application form.
- Non-refundable \$25.00 application fee.
- A typed essay (750-1000 words) in response to the following questions:
 - 1) How have your academic work, professional work, and/or life experiences prepared you for the Baker College Center for Graduate Studies program you seek to enter?
 - 2) What are your personal, professional, and/or career goals 5 and 10 years after you earn your Baker College Center for Graduate Studies degree? How will earning this degree help you achieve these goals?
 - 3) What do you view as your greatest strengths and challenges in order to successfully complete the graduate program?
- Official college transcripts indicating an undergraduate degree in a health related discipline containing specific pre-OT courses. A cumulative GPA of 2.5 or better on a 4.0 scale. The applicant's undergraduate degree must be from a regionally accredited college or university. Official college transcripts must be mailed from the institution granting the degree directly to the Center for Graduate Studies.
- GRE scores may be submitted if the student wants the scores considered in the admissions decision.

MASTER OF SCIENCE IN EDUCATIONAL EFFECTIVENESS

The Master Degree of Educational Effectiveness at Baker College provides educational leaders with the knowledge and skills necessary to manage and lead educational organizations in this era of accountability. The typical educational leadership components including organizational development, budgeting, community relations and ethics are taught through a lens of data analysis and continuous improvement to ensure maximum student learning. Trends in research, technology and best practices are also included. Graduates will possess the ability to implement theory into practice, conduct and interpret research, and will be both capable and confident to significantly contribute to long-term success.

MSEE ADMISSIONS INFORMATION

Admission to the MSEE program as a degree candidate is classified as either full or conditional status. Conditional status is an enrollment status applicable to students who may be deficient in one of the requirements or standards for matriculation such as: undergraduate GPA, letter of recommendation, or another credential required by the program. For applicants admitted on conditional status, the Center for Graduate Studies will specify the conditions for admissions. If the conditions are not met, the student will be dismissed from the program. Application forms and detailed directions are available in the Center for Graduate Studies' Administrative Offices and on the Internet at www.baker.edu. Students are admitted on a rolling admission basis and acceptance decisions are determined by the Admission Committee. Candidates applying for matriculation into the MSEE program must submit the following materials:

- Completed Graduate College Application form.
- Non-refundable \$25.00 application fee.
- A typed essay (500-1000 words) addressing the candidate's reasons for entering the program.
- Official college transcripts indicating an undergraduate degree with a GPA of 2.5 or better (4.0 scale) from a regionally accredited college or university. Official college transcripts must be mailed from the institution granting the degree directly to the Center for Graduate Studies.
- A current resume indicating a minimum of three years of full-time, professional work experience.
- GRE scores may be submitted if the candidate wants the scores considered in the admission decision.

MASTER OF SCIENCE IN INDUSTRIAL / ORGANIZATIONAL PSYCHOLOGY

A Master Degree in Industrial/Organizational Psychology identifies and provides students with a critical path for professional development, credibility in the field, as well as a clear and defined professional identity in their area of specialization in psychology. This program addresses the study of behavior and performance in the workplace and other organizational settings, through the application of the theories, methods, and principles of psychology to individuals, teams, and organizations. This specialization is not intended to prepare you for licensure as a professional psychologist, but rather to apply psychological principles for organizational success.

I/O PSYCHOLOGY ADMISSION INFORMATION

Admission as a degree candidate is classified as either full or conditional status. Conditional status is an enrollment status applicable to students who may be deficient in one of the requirements or standards for matriculation such as: undergraduate GPA, letter of recommendation, or another credential required by the program. For applicants admitted on conditional status, the Center for Graduate Studies will specify the conditions for admissions. If the conditions are not met, the student will be dismissed from the program. Application forms and detailed directions are available in the Center for Graduate Studies' Administrative Offices and on the Internet at www.baker.edu. Students are admitted on a rolling admission basis and acceptance decisions are determined by the Admission Committee. Candidates applying for matriculation into the I/O PSY program must submit the following materials:

- Completed Graduate College Application form.
- Non-refundable \$25.00 application fee.
- A professional essay (750-1000 words). Specific directions for the essay are accessible via the Internet at www.baker.edu.
- Official college transcripts indicating an undergraduate degree with a GPA of 2.5 or better (4.0 scale) from a regionally accredited college or university. Official college transcripts must be mailed from the institution granting the degree directly to the Center for Graduate Studies.
- GMAT or GRE scores may be submitted if the candidate wants the scores considered in the admission decision.

MASTER OF SCIENCE IN INFORMATION SYSTEMS

Professional information technology management is a complex field requiring a strong, inter-related combination of management and technical skills. Thus, the mission of the MSIS program is to ensure that graduates are properly educated in information systems and management theory and equipped with the skills needed to become effective, responsible, technically competent, and ethical information systems leaders and managers upon graduation. The program is offered completely online, and is tailored to those who are already working in information systems, computer science, or software engineering fields, and who have an undergraduate degree in a related technical area.

MSIS ADMISSION INFORMATION

The ideal candidate for the Baker College MSIS program will have a Bachelor Degree in Information Systems, Computer Science, Software Engineering or Information Technology and a minimum of 3 years work experience in the Information Technology field. Applications for Provisional Admission are accepted from candidates without a technical undergraduate degree, but who have extensive hands-on work experience in IT. Applications for Provisional Admission are also accepted from candidates without IT work experience, but with a technical undergraduate degree from an accredited institution. With these more restrictive admission standards, we strive to maintain a higher-level of education and subject discourse, with students contributing greatly to the intellectual (and practical) depth of the program. For provisionally admitted students, the Center for Graduate Studies will specify the conditions for admissions. If the conditions are not met, the student will be dismissed from the program. Admission forms and detailed directions are available in the Center for Graduate Studies' Administrative Offices and on the Internet at www.baker.edu. Students are admitted on a rolling admission basis. Candidates applying for matriculation into the MSIS program must submit the following materials:

- Completed Graduate College Application form.
- Nonrefundable \$25 application fee.
- A typed essay (750-1000 words) in response to the following questions:
 - 1) How have your academic work, professional work, and/or life experiences prepared you for the Baker College Center for Graduate Studies program you seek to enter?
 - 2) What are your personal, professional, and/or career goals 5 and 10 years after you earn your Baker College Center for Graduate Studies degree? How will earning this degree help you achieve these goals?
 - 3) What do you view as your greatest strengths and challenges as you begin your graduate journey? How will you utilize your strengths to overcome your challenges in order to successfully complete the graduate program?
- Official college transcripts indicating an undergraduate degree, with a GPA of 2.5 or better on a 4.0 scale. Official college transcripts must be mailed from the institution granting the degree directly to the Center for Graduate Studies. If the undergraduate degree is not in a technical/IT discipline, the application will be for Provisional Admission.
- A current resume indicating a minimum of three years of full-time, professional work experience in information technology. If the resume does not show 3 years of IT-related work experience, the application will automatically be for Provisional Admission.
- GRE scores may be submitted if the candidate wants the scores considered in the admission decision, and are recommended for those applying for Provisional Admission.

MASTER OF SCIENCE IN NURSING

The Baker College Master of Science in Nursing (MSN) program offers two tracks—Administrative Track or Education Track—to prepare you for a leadership position in the career field you choose. Each Track builds upon your knowledge and experience by combining advanced nursing knowledge with specialized skills to help you achieve your individual potential. The MSN core curriculum—required for both Tracks—provides a foundation that addresses the challenges of today's healthcare, with courses in leadership and ethics, quality improvement, healthcare technologies, and more. As a student in the MSN Administrative Track, you will also develop the knowledge and skills essential to managing health-related organizations, such as finance, human resources, and quality management. In the MSN Education Track, your courses will include advanced health assessment, pharmacology and pathophysiology along with instructional strategies, curriculum development and evaluation strategies.

Both Tracks combine classroom studies with a practicum in your selected area of interest. By studying under, and working with, industry professionals in real-world environments, you learn how to effectively apply principles, theory, and research to develop your skills and competencies. As a MSN program graduate, you'll have both the knowledge and experience that will enable you to successfully advance in your career.

MSN ADMISSION INFORMATION

For the Master of Science in Nursing, standard graduate application and review committee procedures apply.

- Completed application for graduate admissions to Master of Science in Nursing
- Payment of non-refundable \$25.00 Application Fee
- Graduate Essay as it pertains to goals in completion of the MSN credential
- Official Transcripts from a regionally accredited institution indicating Bachelor Degree completion with a 2.5 GPA or higher
- Applicants must hold an unencumbered license as a Registered Nurse (RN) in the United States (US), District of Columbia or US territories; or an unencumbered license as a RN in Canada.
- Applicants must include a photocopy of active US or Canadian RN license or a printed page from the licensing state's nursing website or Canadian equivalent verifying licensure status and expiration date.
- A copy of the score report for any GMAT or GRE scores. (While not required for admission, these scores may be used as supporting evidence for admission to the graduate program.)
- Graduate Review Committee Process:
 - Completed admission file will be reviewed by an admissions advisor other than the advisor enrolling the applicant making sure all admissions documents are in the file and verify all documents are authentic and meet minimum requirements.
 - File is assigned to graduate faculty member who reviews academic credentials and graduate essay, and makes recommendation on admissions disposition.
 - File with admissions and faculty recommendation is submitted to program Dean for final review and final admissions entrance recommendation.

DOCTORATE OF BUSINESS ADMINISTRATION

The Doctorate of Business Administration (DBA) program serves the needs of working adults, helping them to advance in their careers through quality graduate education. The program is designed to graduate scholar practitioners who will set the standard for best practice and contribute to the solution of critical business and management problems through research, teaching, and consulting. Specifically, the purposes of the Doctorate in Business Administration at Baker College are to graduate managers, business leaders, executives, and scholar practitioners able to: Contribute to a deeper understanding of business and management processes in an increasingly complex world through applied research, teaching, and scholarship; improve their performance and the quality of their business decisions through reflective practice and lifelong learning; help companies and organizations solve critical problems and foster an environment of performance excellence; make a difference in the life of their organizations, professions, and the larger world-wide community through service to social and professional organizations by conducting themselves in accordance with the highest ethical standards. The program builds on an effective combination of courses, seminars, professional residencies, research papers, and a final dissertation. Working with faculty members, who have extensive academic and practical experiences, students gain a comprehensive understanding of critical foundation theories and the ability to immediately apply creative solutions to existing problems.

DBA ADMISSION INFORMATION

To be admitted into the program, an MBA degree or equivalent and a minimum of five years professional experience in business or management is required. Candidates applying for matriculation into the DBA program must submit the following materials:

- Completed Graduate College Application form submitted electronically.
- Nonrefundable \$25.00 application fee.
- Official transcripts indicating an MBA or related master degree from a U.S. school accredited by one of the regional accrediting associations, or from a non-U.S. Institution with comparable accreditation. Educational Credential Evaluators, Inc. (ECE) must evaluate a degree awarded from a non-U.S. Institution as equivalent to a master degree awarded by a U.S. institution. A minimum grade point average of 3.25 on a 4.0 scale in their master course work is required.
- A current resume indicating a minimum of five years of professional experience in business, management or administration.
- Include three professional references on the application.
- A 500 - 1000 word essay on your motivation for doctoral study. Essay must be submitted electronically.

MASTER DEGREE PROGRAMS

ACCOUNTING

Master of Business Administration

The accounting major is a program of advanced accounting classes for managers that have undergraduate degrees in accounting and want to take additional classes in subjects that are critical in their work situations. The accounting major is designed to provide a balanced broad education and an in-depth understanding of the theoretical and practical concepts of accounting. Students enrolling in this major must have a minimum of 16-quarter hours of undergraduate accounting. This should include at least eight-quarter hours of principles of accounting and at least four hours of intermediate accounting.

Course Number	Course Title	Quarter Hours

EDUCATIONAL LEADERSHIP: P-12

Master of Science in Educational Effectiveness

This graduate program will emphasize improving student learning in an era of accountability. Course content includes management, organizational development, budgeting, ethics, diversity, and faculty/staff evaluation. Data-driven models will guide the integration of curriculum, instruction, and assessment. Candidates will locate research and best practice information, interpret and use data for decision making, and apply continuous improvement processes to the classroom as well as in administration. The goal of the program is developing leaders who strive to create a coherent system in which all components are working toward a common goal of improved student learning. Technological tools for managing information and improving efficiency will also be included.

It should be noted that there are two different concentrations within the program. One concentration is for those candidates interested in applying their learning to P-12 education. The other concentration is for those candidates interested in higher education. Each concentration has three classes that are unique to the concentration. The other eleven courses are common to both concentrations.

GENERAL BUSINESS

Master of Business Administration

This program seeks to combine the best of conventional academic training with the best of applied learning. The significant difference between this degree option and others mentioned in this catalog is that there is no need to declare a major. Students electing this "general" approach to the degree complete the core MBA courses and then select three other courses offered in the graduate school. This allows the most flexibility and is designed for students who do not have a specific need for a major to select from a variety of interesting classes.

BAKER COLLEGE
SCHOOL of OCCUPATIONAL THERAPY

NURSING

Master of Science in Nursing

The Baker College Master of Science in Nursing (MSN) program strives to prepare nurses for leadership positions in administration (Administrative Track) or education (Education Track). Both cognates build upon the knowledge and skills nurses bring to a curriculum designed to meet the highest levels of nursing practice with an emphasis on the potential of each student. The MSN degree program provides experienced professional nurses the education and competencies needed to function in a rapidly changing healthcare environment.

Accreditation Status: The newly developed MSN Program is based on standards established by the American Association of Colleges of Nursing (AACN), Commission on Collegiate Nursing Education (CCNE). The MSN program is not yet accredited.

NUR 681	Practicum in Nursing Education	04

QUARTER HOURS REQUIRED FOR MSN NURSING EDUCATION (CORE PLUS PRE-REQUISITES) 44

OCCUPATIONAL THERAPY

Master of Occupational Therapy

The delivery of the Occupational Therapy program at the graduate level revolves around instructors facilitating learning through problem-based case management. Students in the MOT program will be required to utilize theory, logic, clinical reasoning, and pragmatic skills in an interactive learning environment. It is expected that students will participate in discussion, debate, and develop treatment choices based on sound research and theoretical assumptions. The Master of Occupational Therapy curriculum emphasizes mastery of skills required for entry-level practice. The curriculum is designed so that graduates can review, understand, conduct, and interpret research activities. Evidence-based practice initiatives make it essential that practitioner's research skills are well developed.

Program Status: Limited Enrollment

QUARTER HOURS REQUIRED FOR GRADUATION		56

DOCTORAL DEGREE PROGRAM

BUSINESS ADMINISTRATION

Doctorate of Business Administration

Structured as a 90 quarter credit program, the DBA curriculum blends taught interdisciplinary content and research seminars with assessed scholarly and professional development activities, including attendance at two professional residencies. The program culminates in a research-based dissertation focused on a real problem facing today's business leaders and managers. Over the course of the program, students develop the capacity to work independently and in more depth, moving from prescribed content in the first year of the program, to supervised scholarly activities in the second year, to independent research focused on his or her area of interest in the third year. Students may choose from six areas of specialization or design their own specialized field of study.

Course Number	Course Title	Quarter Hours
