

A Philosophy for Students, Faculty, and Staff

Each individual in the campus community is responsible for the health and safety of the whole campus community.

Each individual is expected to clean, disinfect, and sanitize areas on campus that they use and which are considered available to the public.

Immediate reporting of any information regarding the health of anyone else in the campus community is a critical responsibility and BC expects that reporting will happen immediately.

If you are sick or have any symptoms of COVID-19, stay home.

While on campus, you must follow all CDC health and safety guidelines including but not limited to:

- Wash your hands regularly for 20 seconds
- Watch for symptoms
- Utilize proper respiratory etiquette
- Practice social distancing
- Wear a facemask – required in all public/shared spaces
- Clean and disinfect regularly – students, faculty and staff

Violations of any Infectious Disease Preparedness and Response policies, procedures, or protocols will result in disciplinary action up to and including employee termination or student expulsion.
